TOWN OFFICERS, 1918

Selectmen—William T. Eldridge, Ephraim D. Bartlett, George W. Bradford, Dexter H. Craig and Henry O. Whiting.

Town Clerk—George B. Howland.

Town Treasurer—George B. Howland.

Collector of Taxes—Herbert W. Bartlett.

*Clerk of Selectmen—Elmer R. Harlow.

*Town Accountant—Elmer R. Harlow.

Assessors—James C. Bates, chosen 1916 for three years; Nathaniel G. Lanman, chosen 1917 for three years; George Harlow, chosen 1918 for three years.

Overseers of the Poor—Charles A. Strong, chosen 1916 for three years; William T. Eldridge, chosen 1917 for three years; Herbert W. Bartlett, chosen 1918 for three years.

Water Commissioners—John H. Damon, chosen 1916 for three years; Eugene H. Dorr and William R. Morton, chosen 1917 for three years; John W. Churchill and Robert C. Harlow, chosen 1918 for three years.

School Committee—Edward W. Bradford, chosen 1916 for three years, resigned Sept. 28, 1918 and William M. Douglass, appointed to fill vacancy; Walter D. Shurtleff, chosen 1917 for three years; Helen F. Pierce, chosen 1918 for three years.

Cemetery Commissioners—Henry W. Barnes, chosen 1913 for three years; Horace M. Saunders, chosen 1917 for three years; George Mabbett, chosen 1918 for three years.

Burial Hill Committee—Cemetery Commissioners.

Agawam and Halfway Pond Herring Fishery Committee—
Frank Harlow, Alfred Holmes and Arthur L. Morse.

Park Commissioners—Thomas R. Watson, chosen 1916 for three years; Benjamin F. Raymond, chosen 1917 for three years; John Russell, chosen 1918 for three years.

Board of Health—George H. Jackson, chosen 1916 for three years; Freeman Manter, chosen 1917 for three years; Harry R. Talbot, chosen 1918 for three years.

Surveyors and Measurers of Lumber—Edward B. Atwood, Alvin A. Hall, Cornelius C. Holmes and Warren S. Bumpus.

Surveyor of Wood and Bark—Alfred C. Finney.

Planning Board—Arthur Lord, LeBaron R. Barker, Francis C. Holmes, George Mabbett and Arthur E. Blackmer.

Field Drivers and Fence Viewers—Charles H. Raymond and Lewis F. Smith.

Sexton—Thomas J. Kennedy.

Pound Keeper—Russell L. Dickson.

Committee on Inland Fisheries—James S. Clark, Warren S. Gale and Geoffrey D. Perrior.

Sealer of Weights and Measures—Frank L. St. George.

Beach Committee—Selectmen.

Superintendent of Streets—Stillman R. Sampson.

Superintendent of Water Works—Arthur E. Blackmer.

Collector of Water Rates—N. Reeves Jackson.

Harbor Master—Alfred Holmes.

Board of Registration—Charles H. Sherman, appointed 1916 for three years; Herbert W. Clark, appointed 1917 for three years; George F. Anderson, appointed 1918 for three years.

Superintendent of Oak Grove and Vine Hills Cemeteries and Burial Hill—Edward F. Stranger.

Superintendent of Chiltonville Cemetery—Charles Rogers.

Superintendent of Manomet Cemetery—George A. Manter.

Superintendent of Cedarville Cemetery—James L. Haskell.

Superintendent of Almshouse—Russell L. Dickson.

Fire Commissioner—Robert C. Harlow.

Town Engineer—Arthur E. Blackmer.

Chief of Police—John Armstrong.

Tree Warden—Calvin S. Mixter.

Forest Warden—Ira C. Ward.

Local Moth Superintendent—Abbott A. Raymond.

Committee on Sewers—Selectmen.

*Appointed to fill vacancy caused by the resignation of Richard T. Eldridge.

ABSTRACTS OF RECORDS OF 1918

ANNUAL TOWN MEETING, MARCH 23, 1918.

CHARLES S. DAVIS, *Moderator*.

Article three:

On motion of William T. Eldridge: voted, that the reports of the several Boards of Officers and Committees of the Town be accepted and placed on file.

Article four:

On motion of William T. Eldridge: voted, that the Town authorize the Town Treasurer, with the approval of the Selectmen or a majority thereof, to borrow during the financial year beginning January 1, 1919, in anticipation of the revenue of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding two hundred and fifty thousand (\$250,000) dollars, giving the notes of the Town therefor payable within one year from dates thereof. All debts incurred under the authority of this vote shall be paid from the revenue of said financial year.

Article six:

Mr. Harry B. Davis moved that the Town appropriate the sum of \$4,000.00, including the dog fund of \$1,136.36; for the maintenance of the Plymouth Public Library; the necessary two-thirds voting in the affirmative the motion was carried.

Article seven:

Mr. Harry B. Davis moved that the Town appropriate the sum of \$250.00 in aid of the Manomet Public Library; the necessary two-thirds voting in the affirmative the motion was carried.

Article eight:

Mr. Harry B. Davis moved that the Town appropriate the sum of \$1,700.00 for the care and improvements of the various parks, and the sum of \$200.00 for the care of the Training Green; the necessary two-thirds voting in the affirmative the motion was carried.

Article nine:

Mr. Harry B. Davis moved that the Town appropriate the sum of \$225.00 to pay the expenses of the observance of Memorial Day; the necessary two-thirds voting in the affirmative the motion was carried.

Article ten:

On motion of Harry B. Davis: voted, that the Town authorize the Selectmen to renew any note or notes heretofore authorized, which are now due or may become due the present year for such time and on such terms as they may deem expedient for the best interests of the Town.

Article eleven:

On motion of Harry B. Davis: voted, that the Officers of the Town authorized by law to expend money, may expend between January 1, 1919 and the annual Town Meeting next following, such amounts as may be required for the expenses of their respective departments, not to exceed in the aggregate for each department the amount expended by such department during any period of the same length during the preceding year, the

same to be paid from any moneys in the Treasury to be reimbursed from the tax levy of that year.

Article twelve:

On motion of Harry B. Davis: voted, that the Town appropriate from money in the Treasury not otherwise appropriated, the sum of \$6,157.28, to the Health Department appropriation, the same to be used in paying bills and other outstanding obligations against that Department, Jan 1, 1918.

Article thirteen:

On motion of Harry B. Davis: voted, that the Town authorize the use of \$4,000.00 in the Reserve Fund accumulations from the overlay of taxes to reduce the tax levy of 1918.

Article fourteen:

On motion of Harry B. Davis: voted, that the Town authorize the use of \$900.00 received from the sale of the Allerton Street school and \$100.00 received from the sale of the Ellisville school, to reduce the tax levy of 1918.

Article sixteen:

On motion of Harry B. Davis: voted, that the Town appropriate the sum of \$8,700.00, for the purpose of making the school houses more fireproof by metal lathing and hard plastering the basements.

Article seventeen:

On motion of Henry Walton: voted, that the subject matter of Article seventeen be referred to a committee of five, to be appointed by the Moderator; said committee to consider and report at a subsequent meeting of the Town, a code of building laws especially adapted to the prevention and spread of fire.

Article eighteen:

On motion of Henry Walton: voted, that the subject matter of Article eighteen be referred to a committee of five, to be appointed by the Moderator; said committee to report at a subsequent meeting of the Town.

Article nineteen:

On motion of Nicholas Keefe: voted, that action under this article be indefinitely postponed.

Article twenty:

On motion of Frederick D. Bartlett: voted, that action under this article be indefinitely postponed.

On motion of William T. Eldridge: voted, that the sum of \$267,754.00 be raised and assessed upon the polls and estates of the Inhabitants of the Town of Plymouth, and upon the estates of the non-residents, to defray the expenses of the Town for the ensuing year.

SPECIAL TOWN MEETING, SEPTEMBER 28, 1918.

CHARLES S. DAVIS, *Moderator*.

Article two:

On motion of William T. Eldridge: voted, that the sum of \$3,000.00 be appropriated from money in the Treasury not otherwise appropriated, the same to be expended by the Highway Department in constructing a surface water drain on Standish Avenue, from Cordage Terrace to the brook running into the Plymouth Cordage Company's pond.

Article three:

On motion of Frederick D. Bartlett: voted, that action under this article be indefinitely postponed.

Article four:

On motion of Frederick D. Bartlett: voted, that the sum of \$1,650.00 be appropriated from money in the Treasury not otherwise appropriated, to the Water Department Maintenance appropriation.

Article five:

On motion of Arthur E. Blackmer: voted, that the sum of \$500.00 be appropriated from money in the Treasury not otherwise appropriated, to the Water Department construction appropriation.

Article six:

On motion of Frederick D. Bartlett: voted, that the sum of \$300.00 be appropriated from money in the Treasury not otherwise appropriated, to the Tree Warden's appropriation.

Article seven:

On motion of Frederick D. Bartlett: voted, that the sum of \$500.00 be appropriated from money in the Treasury not otherwise appropriated, the same to be expended by the Park Commissioners in cutting and piling wood in Morton Park.

Article eight:

On motion of Arthur Lord: voted, that the sum of \$2,000.00 be appropriated from money in the Treasury not otherwise appropriated for the use of the Public Safety Committee.

On motion of William T. Eldridge, voted to adjourn.

SPECIAL TOWN MEETING, DECEMBER 14, 1918.

ARTHUR LORD, *Moderator*.

Article two:

On motion of Frederick D. Bartlett: voted, that the Town authorize the Town Treasurer, with the approval of the Selectmen or a majority thereof, to borrow during the financial year beginning January 1, 1918; in anticipation of the revenue of said year, such sums of money in addition to the amounts heretofore authorized, as may be necessary for the current expenses of the Town, but not exceeding, including the amounts heretofore authorized, the total tax levy for said year, giving the notes of the Town therefor payable within one year from the dates thereof. All debts incurred under the authority of this vote shall be paid from the revenue of said financial year.

Article three:

On motion of Frederick D. Bartlett: voted, that the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of six hundred dollars (\$600) to the appropriation for Town Debt and Interest.

Article four:

On motion of Frederick D. Bartlett: voted, that the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of five thousand dollars (\$5,000) to the School Department appropriation.

Article five:

On motion of Frederick D. Bartlett: voted, that the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of seven hundred dollars (\$700) to the School

Department appropriation for teachers' salaries during the month of December, 1918.

Article six:

On motion of Frederick D. Bartlett: voted, that the Town authorize the School Committee to expend between January 1, 1919 and the next annual Town Meeting the sum of three thousand dollars (\$3,000) in addition to the amount authorized by vote of the Town, March 23, 1918.

Article seven:

On motion of Frederick D. Bartlett: voted, that the Town accept Chapter 293 of the General Acts of Massachusetts for the year 1916, entitled, "An Act to Authorize Licensing by Cities and Towns of Motor Vehicles Carrying Passengers for Hire."

Article eight:

On motion of Harry B. Davis: voted, that the Town authorize the Selectmen, for the time being in the name and in behalf of the Town, on such terms and conditions as to them appear for the interest of the Town, subject to the approval of the Public Service Commission, to agree to contribute in case of a deficit in the cost of operation and fixed charges of the lines of the Brockton & Plymouth Street Railway Company, as provided by Chapter 288 of the General Acts of Massachusetts for the year 1918, for a period of six months, an amount not to exceed one-half the amount which the Town is authorized to contribute annually under said Act, and that said six months period shall begin on the date of the establishment of a ten cent fare, after authorization by the Public Service Commission.

Mr. Harry B. Davis then moved: In order to carry out the vote of the Town under Article 8 of the Town Warrant authoriz-

ing the Selectmen to contribute to a deficit in the operation and fixed charges of the Brockton & Plymouth Street Railway Company under Chapter 288 of the Acts of Massachusetts for the year 1918, that the Selectmen be and hereby are authorized to issue notes of the Town for a sum not exceeding seventy-five hundred dollars (\$7,500) and bearing interest at a rate not to exceed five per cent per annum and payable not later than December 31, 1919, the amount necessary to take care of these notes to be included in the tax levy of 1919. Eighty-seven voting in the affirmative and one in the negative, the necessary two-thirds voting in the affirmative the motion was carried.

On motion of Harry B. Davis: voted, that the Selectmen be authorized to appoint some person to represent the Town on the Board of Directors of the Brockton & Plymouth Street Railway Company.

On motion of Harry B. Davis: voted, that a committee consisting of five members be appointed by the Moderator, to be known as the Transportation Committee of the Town of Plymouth, whose duty it shall be to make a thorough investigation of the street railway transportation problem with reference to the needs of the Town of Plymouth and to determine, if possible, whether any other method of transportation, especially the motor-bus system, might prove adequate and feasible if the present system were abandoned. It shall also be the duty of this committee to represent the Town at all legislative hearings appertaining to transportation and to initiate and procure such legislation as may be necessary to authorize the Town to become a party to a reorganization of the present system if such reorganization should be deemed expedient or to procure any legislation for any purpose pertaining to the issue of transportation which may appear necessary. This committee shall make a report to the Town at the Annual Town Meeting or at any subsequent annual or special meeting of the Town and shall continue in office until formally discharged by a vote of the Town.

On motion of Morton Collingwood: voted, that the Advisory and Finance Committee of the Town consider the question of salaries of Town Officers and report at the next annual meeting of the Town what readjustments of salaries and compensation of said officers is advisable.

On motion of Frederick D. Bartlett: voted, to adjourn.

REPORT OF THE SELECTMEN

The year 1918 has marked an epoch in the World's history. Again we have been engaged in War. The greatest conflict ever known has been carried to a successful termination. Despite every honorable means we were forced into it in the interests of Humanity. Extremely unprepared as we were, our efforts to be efficient were crowned with almost immediate results, and as we improved these results grew more and more important. We have emerged with the proud consciousness of having in a large measure been the means of preserving the civilized World from domination by ruthless Barbarians.

Plymouth may well be proud of its young men who have fought abroad. They have acquitted themselves nobly; not only on the firing line, but in camp, their manly conduct under restraint and privation has been admirable. The Honor Roll erected on the Court House lawn will always be an object of pride and gratification to this and future generations.

During the War general Municipal activities were hampered by the Government's request for strict economy, and by the difficulty of getting materials. Only the most necessary work was done. High prices for labor and materials made it impossible to do all that was needed. Much that was needed could not be finished, and the Town is now faced with a large amount of very important work that should be completed. Not only is this needed for the best interests of the Town, but there will be many deserving men returning from abroad who want work. And it should be

the welcome duty of the Town to furnish as much work as possible to relieve the labor situation.

The report of the Superintendent of Streets will give in detail the different projects and the amount accomplished.

The high cost and the poor quality of dust laying oils prevented our making the usual applications of this material. In place of it, an experiment was tried of sprinkling the streets with salt water. A pump was placed on Pilgrim Wharf, and one cart was kept at work entirely with this. The result was very satisfactory. Streets sprinkled with salt water required less than half as many applications, and the dust was kept down much better. It is intended to continue this method. Although the oil will be used when the price becomes practical, as the use of oil has a very beneficial and lasting effect on the wearing qualities of the gravel roads.

The sewers have been extended as fast as the appropriation would permit. It is the settled policy of the present Board to give sewer facilities as far as practical, not only for the convenience of the users, but as a health measure. We hope to have all the houses, so situated as to be connected with sewers, entered eventually.

There are some articles in the Warrant that we would call attention to. The Bartlett Road in Manomet has had some improvement made in the past three years. Now Mr. Alden Bartlett has generously offered to assume one-third of the cost of finishing this road with a hard surface. It seems as if the Town should avail itself of this offer. This road is used by the Manomet Cranberry Co., and the improvement suggested will not only make travel over the road easier, but will result in a lower cost for maintenance.

There is also a petition for the permanent improvement of the road from the Manomet Church to White Horse. This road which is mostly a down grade, is a difficult one to keep

in order. It washes badly, and as there is a very heavy travel it gets deeply rutted. An appropriation is asked for this purpose.

The roads in the Long Pond and Cedarville districts are in bad condition, but nothing can be done to improve these much until the heavy trucks now engaged in logging there are through.

Main Street Extension, while opened for travel for some time, has never been entirely completed. The westerly side of the street still awaits its sidewalk. The recent accident there which resulted in the destruction of the Bridge railing has left the opportunity for this walk to be put in. We have been unable to get an estimate for this work, but hope to be able to present one at the adjourned meeting.

The long drawnout controversy over the Town's subscription for stock in Plymouth and Sandwich St. R. R., this project has finally been ended. And it is a matter for congratulation that the contention of the Selectmen in behalf of the Town, has been sustained by the Supreme Court.

BROCKTON AND PLYMOUTH STREET RAILROAD

This road has been a matter of concern for some time past. The management notified the Selectmen that the road would have to cease operation as the receipts were insufficient to pay the operating expenses. A committee of the Chamber of Commerce in connection with the Selectmen took this matter up with the Managers of the road, and the result is that Plymouth together with Kingston, Pembroke and Hanson, have agreed to contribute to the running expenses in proportion to their valuation for a period of six months.

This with some changes in management, and an aroused public sentiment is expected to improve things, and may result in saving the road as far as the public is concerned.

TERCENTENARY.

The time is rapidly approaching when the Town will be called on to celebrate in a fitting manner the three hundredth anniversary of the landing of the Pilgrim Fathers. Plans have been under consideration since 1915. The coming of the war put a stop to these, but now we are in a position to go ahead and substantial progress has been made, sufficient to warrant the statement that a dignified and appropriate celebration will be held commencing in December of 1920, and continuing through the summer of 1921. A number of changes are being made in the way of removing old buildings and preparing the locality of the Rock for a suitable setting for the change. Private citizens can do much to help along this work. Every one should see that his own premises are put in order as far as possible, and all unsightly things removed. We want the Town to present as attractive an appearance as can be, when the thousands of strangers that will be brought here by this celebration view our streets and residences. The reputation that Plymouth has must be sustained, and concerted effort by all is desired to that end. We have taken the initiative in purchasing a lot for a Memorial building, and you will be asked to take further action soon. This will disarm the criticism made that we were² laying back and waiting for the general public to fix up for us. There is no doubt that with Plymouth doing its part the rest of the Country will respond generously.

POLICE DEPARTMENT.

The Town has been very quiet and orderly the past year. The activities of the Police have been mostly routine and have been carried on in their usually efficient manner. For detailed information consult the report of the Chief of Police.

STREET LIGHTING.

The reduction in the lights on the so-called White Way that was ordered by the Fuel Commission has now been done away with. Several extra large lights that were installed for war purposes have been removed and the street lighting is now back on its normal basis. A number of new lights were installed in places that needed them.

A table of estimates will be found following, showing what the different departments ask for 1919.

APPROPRIATIONS RECOMMENDED BY THE SEVERAL DEPARTMENTS.

Selectmen's Department,	\$2,300 00
Accounting Department,	1,700 00
Treasury Department,	1,500 00
Tax Collector's Department,	2,000 00
Assessors' Department,	4,350 00
Assessors' Plans,	1,000 00
Law Department,	600 00
Town Clerk's Department,	500 00

Engineering Department,	900 00
Street-Line Survey,	400 00
Planning Board,	100 00
Election and Registration,	1,000 00
Maintenance of Town House,	1,600 00
Police Department,	10,000 00
Fire Department,	17,830 00
Fire Department, new truck,	1,800 00
Sealing Weights and Measures,	800 00
Moth Suppression,	6,000 00
Tree Warden's Department,	1,500 00
Forest Warden's Department,	2,500 00
Shell Fish,	600 00
Inland Fisheries,	100 00
Health Department,	12,000 00
Health Department, for outstanding bills,	1,349 35
Public Sanitary,	450 00
Sewers,	2,000 00
Roads and Bridges,	31,000 00
Side Walks,	6,000 00
Snow and Ice Removals,	2,000 00

Water Department, construction,	5,000 00
Oak Grove and Vine Hill Cemetery,	6,000 00
Burial Hill Cemetery,	1,000 00
Chiltonville, Manomet, Cedarville and South Pond Cemeteries,	300 00
Addition Manomet Cemetery,	400 00
Town Debt and Interest,	51,000 00

WILLIAM T. ELDRIDGE,
EPHRAIM D. BARTLETT,
D. H. CRAIG,
GEORGE W. BRADFORD.

REPORT OF SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

Plymouth, Massachusetts.

Gentlemen:—

I herewith submit my report of the Street Department for the year ending December 31st, 1918.

ROADS AND BRIDGES.

Under this heading is included the care of the roads in the outlying districts, and the general repairs and cleaning of the streets in the center of the town.

Court Street from Nelson Street to Cherry Street has been resurfaced with Tarvia B. Main Street Extension has been redressed with a sealing coat of tar and pea stone, and Sandwich Street from Pleasant Street to Main Street Extension and from Water Street to Fremont Street has been redressed with the same material. Sandwich Street from Fremont Street to Cornish's Meadow has been reconstructed and seal coated with tar and sand.

The Darby Road has had nothing done this year except some coal-patching, but the coming year it should be re-dressed with Tarvia B.

The roads in the outlying districts, with the exception of the Long Pond district, have had their usual care.

Obery Street was widened and straightened this year at quite an expense to the Town.

We have done much coal-patching on the Point Road in Manomet during the past year and would recommend that this road be redressed.

SIDEWALKS.

In addition to the general repairs on side-walks, the following construction work has been done:

Granolithic walks:

Sandwich Street,	68 square yards
Court Street,	82 square yards

The sidewalk on South Street from Stafford Street to Towns Street has been built with ashes and covered with tar. The sidewalk on Washington Street has also been built with ashes and covered with tar. On Lincoln Street the sidewalks have been redressed with ashes and crushed stone.

Ashes and Crushed Stone Walks:

Union Street,	200 square yards
Newfields Street,	684 square yards
Vernon Street Extension,	390 square yards
Standish Avenue,	2,640 square yards
Court Street,	1,622 square yards
Nelson Street,	1,618 square yards

Granolithic Edge Stone:

Court Street,	138 feet
Sandwich Street,	180 feet

SEWERS.

The sewer on South Street has been extended 610 feet.

The sewer on Alden Street has been extended 220 feet.

A surface drain has been laid on Standish Avenue to take

care of the surface water, with a 20-inch pipe from Hedges Brook to Cherry Street and from Cherry Street to Cordage Terrace a 15-inch pipe has been laid. Two catch-basins have been built on Cherry Street and two on Standish Avenue to take care of the sand which is washed down by the heavy rains.

REMOVAL OF SNOW.

The expense for removal of snow for this year has been very light, owing to the mild winter.

Respectfully submitted,

S. R. SAMPSON,
Superintendent of Streets.

Seventh Annual Report

OF THE

Town Accountant

OF THE

TOWN OF PLYMOUTH

MASSACHUSETTS

For the Year Ending Dec. 31

1918

Plymouth, Mass., February 8, 1919.

To the Board of Selectmen,

Plymouth, Mass.

Gentlemen:

I herewith submit report of the financial transactions of the Town of Plymouth for the year ending December 31, 1918, arranged in the order which has been followed for the past five years.

Schedule A. shows the receipts and payments for the year classified as required by the Bureau of Statistics of the Commonwealth.

Schedule B. is a detailed account of each appropriation, showing the amount appropriated, the additions to and payments from the same.

Schedule C. is a statement of the Estimated Receipts; the charges being the amounts estimated and deducted from the total of the appropriations, by the Assessors in making up the Tax Warrant, and the credits being the amounts actually received.

Schedule D. is a transcript of the Revenue Account for the year.

Schedule E. is the Excess and Deficiency Account for 1918. This corresponds to the Profit and Loss Account of a business.

Schedule F. is the Balance Sheet, January 1, 1919, showing the condition of the Town Finances after closing the books for 1918.

Schedule G. is a summary of the outstanding indebtedness showing the debt at the beginning of the year, the amounts paid on same and the principal and interest requirements for 1919. (There were no additions to the funded debt during 1918.)

Schedule H. is a detailed statement of the Outstanding Indebtedness.

Schedule I. is an itemized statement of the Trust Funds, not included in the January, 1919 dividends.

At the close of the year, bills of the following departments were unpaid as there were no funds remaining in the appropriations:

Health Department,	\$997 70
School Department,	3,096 49
Total,	<hr/> \$4,094 19

Appropriations for the payment of these bills, contracted in 1918, were made at a Special Town Meeting on January 25th, 1919, and at this date they have been paid.

As in the previous year several departments found it necessary to ask for additional appropriations after the Annual Town Meeting. These amounts taken from the Excess and Deficiency Account (Surplus) were in part offset by returns to that account of unexpended balances from other appropriations and by excess of estimated receipts. The net depletion of the surplus was \$2,853.57.

Succeeding to this office late in the year, after the bulk of the department appropriations had been disbursed and classified, I feel that these schedules while necessarily arranged and presented by me, constitute the seventh annual report of Mr. Richard T. Eldridge whose resignation in September last, after serving as Town Accountant from the adoption of the system in 1912, prevents it being offered over his signature.

Respectfully submitted,
ELMER R. HARLOW, *Town Accountant.*

We recommend an appropriation for the services and expenses of the Assessors, the sum of (\$3,500.00) Three Thousand five hundred dollars, for the year 1919. And the sum (\$1,103.13) One Thousand one hundred three and 13-100ths dollars, balance of Overlay for the year 1916, be transferred to the Overlay for the year 1917. And the sum of (\$4,000.00) Four Thousand dollars of the Overlay for the year 1918, be applied to the Tax Levy for the year 1919. Also the sum of one thousand (\$1,000.00) dollars to continue the survey and plan of the Town.

JAMES C. BATES,
GEORGE HARLOW,
NATHANIEL G. LANMAN,
Assessors.

REPORT OF OVERSEERS OF THE POOR

FOR THE YEAR ENDING DECEMBER 31, 1918.

The appropriation for use of our department for the year, exclusive of that for mothers with dependent children, was \$14,000, to which is added the income from certain trust funds amounting to \$97.76. We have expended as will be seen from the appended figures following the sum of \$12,631.60 for support of those in the Almshouse, and for temporary aid to persons outside, aid having been given to 186 of the latter.

The number of inmates in the Almshouse on Jan. 1, 1918, was	14
Admitted during 1918,	5
	— 19
Discharged during 1918,	2
Died,	1
	— 3
	—
Number remaining on Jan. 1, 1919,	16

The Superintendent and Matron, Mr. and Mrs. Russell L. Dickson, have kept the house and its surroundings up to the usual high standard heretofore maintained by them. The garden, under charge of the Superintendent, besides supplying the Almshouse with a variety of vegetables for the table during the season, has produced 4740 pounds of mangel beets, 500 pounds of winter squash, 200 pounds of pumpkins, 60 bushels of potatoes, 12 bushels of onions and 42 bushels of corn. Enough milk is produced for use of the inmates, with occasionally enough cream for a small amount of butter. About 400 pounds of pork raised on the place was also used.

We recommend an appropriation of \$15,000.00 for the year 1919, for while undoubtedly the present high prices of necessities will drop somewhat, we anticipate a considerable increase in the number of applications for aid over the year 1918.

MOTHERS WITH DEPENDENT CHILDREN.

Of the \$4,000.00 appropriated for mothers with dependent children \$3,470.30 has been expended. We added three mothers and their children to those receiving aid under the provisions of Chapter 763, and discontinued aid to two, leaving the number aided at present, under this act, at 11 mothers with 37 children, a total of 48 persons thus aided. For this branch of the department we recommend an appropriation of \$5,000.00.

Receipts.

Sale of Wood,	\$8 00	\$8 00
---------------	--------	--------

In addition to the clearing and seeding which has given us approximately fifteen thousand square feet of salable land we have, since January 1, 1919, taken down two hundred and fourteen feet of stone wall that had to be removed and relaid it on a boundary of the new land, feeling that we were justified in doing this work, knowing it could be done cheaper and better during the winter months when the ground is frozen.

The work entailed an expenditure of two hundred dollars. We recommend and ask for a special appropriation of two hundred dollars covering this expense. With an additional appropriation of two hundred dollars for further work. This makes the total of the special appropriation four hundred dollars.

Seventeen funds have been established during the past year and additions made to two, the whole amounting to \$3,175.00. The town accountant, in his report gives the entire list of funds for perpetual care.

Respectfully submitted,

GEORGE MABBETT,
HORACE M. SAUNDERS,
HENRY W. BARNES.

BOARD OF HEALTH

To the Honorable Board of Selectmen and the Citizens of
Plymouth

The following report shows the work of the Board of Health for the year ending December 31, 1918.

The past year has been marked by unusual activity. The attention of the Town is particularly recalled to the information submitted in regard to the tuberculosis dispensary. The various activities connected with it having been extended and while the cost of maintenance is large, we believe that in its saving of human life it will justify the expenses necessary for its proper operation. We might state that the maintenance of such a dispensary is obligatory on Towns of over ten thousand inhabitants and that our own dispensary is equipped in every way according to the recommendation of the State Board of Health.

We also desire to call your attention to the generally satisfactory manner of disposing of rubbish and waste matter. The Town has maintained two dumps which are in the care of a competent supervisor; one off Standish Avenue and the other on land of the Town off Fremont Street, the latter as a result of constant filling in of waste matter and the burning of such as is inflammable, is making land that will in the near future be most valuable as a public playground.

During the past year according to the report of the Town Accountant \$412.50 has been paid for plumbing inspection. The inspectors, Mr. M. D. Welsh and A. A. Sampson report a total of permits granted as follows:

Total number of permits,	85
For new houses,	25
For old houses,	60
Inspections made,	119

Owing to the large number of contagious diseases the work of the inspector has been unusually strenuous during the past year. The usual contagious cases, such as diphtheria, scarlet fever and the like, have required fumigation and in addition wherever requested or advised by the Doctor in charge, fumigation work has been done in influenza cases. The total number of cases fumigated the past year being two hundred ten. The inspector has also investigated over two hundred complaints of various kinds.

Eleven ships from Mexican ports have arrived during the past year and in each case the inspector has secured a "Clean Bill of Health."

The following tabulation by months will show the contagious diseases most prevalent at all times during the year.

	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
Chicken Pox	10	1	3		1							2	17

Cases

The third week in September marks the advent of Spanish influenza and inasmuch as the Commonwealth had not made reportable this disease no record of cases will be found until some weeks later when this measure became effective. During this time so rapid did the infection take place that the Board took the initiative and closed churches, schools, theatres and all other places where persons were likely to assemble. This quarantine measure was held until a marked decrease in the number of new cases was noted, and then it was removed.

During the height of the epidemic the contagious ward at the Jordan Hospital was further equipped by the Board and the whole turned over for the reception of this class of cases.

At the north end the Cordage Company equipped a branch hospital and but for these two establishments the Town would have suffered a higher mortality than it did.

Too much cannot be said for the Cordage Company, the Hospital, the Red Cross, the Community Nurses Association and those private individuals who volunteered their services during the Black Plague of 1918.

The Board, as in the past, has cared for such cases of contagious disease as have been known to be indigent. Hospital treatment wherever possible, has been afforded and everything has been done for the care and well being of the charges. In those cases of foreign settlement reimbursement has been required from their home city or town.

In all ways during the past year the work has been satisfactory to the Board.

The dispensary has been maintained as in the past. The rooms in the Bradford Building have been open at 9.00 a. m. and at 7.00 p. m. on each Thursday throughout the year.

Home conditions of all patients have been investigated and whenever found necessary suggestions have been made for their betterment. Such cases as have been found to be positive have been advised sanatorium treatment and many have availed themselves of this opportunity to get well.

Border line cases have been frequently examined and such treatment instituted as was desirable. To many of these, articles of diet have been given as well as medicine. In all cases sufficiently intelligent, a clinical thermometer has been given and a written report of morning and evening temperature required at the next call.

Sputa cups, napkins, bags, window tents and all other approved articles have been distributed whenever necessary.

The constantly increasing number of examinations, especially among children and young adults testifies to the success of the work.

Biological products have been obtained from the State Department of Health and furnished free to the physicians thus affording the community at large with standard preparations at practically no expense to themselves.

The value of the work of the Inspector of Milk and also of the Inspector of Slaughtering may be judged by the report of each which are printed in full immediately following our general report.

The Board asks an appropriation for the coming year of \$12,000, to cover its expenses, which sum includes the annual payment of \$2,000 for the Jordan Hospital. The sum of \$1,349.35 is also requested for 1918 unpaid bills. In regard to the latter item we would state that there are a number of bills, payment of which is in dispute and it is possible that this amount will not be needed in its entirety.

Respectfully submitted,
GEORGE H. JACKSON, M. D. *Chairman.*
FREEMAN MANTER,
HARRY R. TALBOT,

Board of Health.

REPORT OF INSPECTOR OF MILK

To the Honorable Board of Health:—

I respectfully submit my report as Inspector of Milk for the year ending Dec. 31, 1918.

During the past year the work of dairy and milk inspection has followed the lines previously determined upon, the object being to secure the intelligent and hearty co-operation of producers and distributors in furnishing for Plymouth a clean and safe supply of milk. Circulars have been sent, describing improved methods, personal talks with many have presented the view-point of the sanitarian, and suggestions for changes of equipment or handling have been made where necessary.

There have been made two hundred and twelve visits to stables and dairies. Twenty new permits have been granted. There are now under inspection one hundred and twenty-six dairies, of which one hundred and fifteen are at present selling milk to Plymouth.

Under the Public Statutes, Acts of 1909, Chap. 443, there have been granted fifty-three Dealers' Licenses. Thirty-four of these are to producers, and nineteen to stores and markets. As provided in the Board of Health Regulations, fifteen restaurants and hotels have been licensed to sell milk. Twenty-one dealers have been registered as selling oleomargarine.

Owing to the fact that the milk laboratory has been used by the local Draft Board, the chemical and bacteriological examination of milk has been entirely omitted. Numerous complaints have been made as to the quality of milk, and these have been investigated and the trouble corrected as far as possible without a laboratory examination. It is probable that a campaign of inspection, whenever this shall be possible, will

considerably improve the quality of the milk, both as to cream and cleanliness.

The high cost of feed, and scarcity of labor has had a tendency to force some producers out of business, and we are threatened with the necessity of having milk shipped in from more or less distant points to supplement our local supply. This is most unfortunate, as such milk is inevitably more or less contaminated in handling and is apt to be older than is desirable. Every effort should be made by the public to encourage milk production in Plymouth.

I recommend an appropriation of one hundred and fifty dollars for laboratory expenses.

Respectfully submitted,

WALTON E. BRIGGS,

Milk Inspector.

Plymouth, Jan. 14, 1919.

REPORT OF INSPECTOR OF SLAUGHTERING

FOR THE YEAR ENDING DEC. 31, 1918.

The following animals were slaughtered and inspected in Plymouth.

	Pigs	Cattle	Calves	Lambs
January,	38	13	5	
February,	16	7		
March,	23	4	4	
April,	7	3	2	
May,	11	3	18	
June,	8	5	14	
July,	3		10	2
August,	6	11	8	
September,	10	17		
October,	25	25		
November,	57	13	7	
December,	158	25	8	
	<hr/> 362	<hr/> 126	<hr/> 76	<hr/> 2

Two cattle were condemned as unfit for food as they were affected with tuberculosis, a portion of another cow was condemned as it was bruised and hurt; one pig was condemned as suffering from Hog Cholera.

Two calves have been condemned as being under weight, and under age. The need of the Town to have a slaughter house for the use of the people is still apparent to everyone.

At present the business of slaughtering in this Town is con-

ducted in a very unsatisfactory manner to everyone. Many of the places are improperly drained and are unclean and pigs are kept too near to where the slaughtering is done.

We have had more people engaged in the business of slaughtering this past year than ever before, and many more swine have been kept than usual.

FREDERICK H. BRADLEY,

Inspector.

REPORT OF TOWN ENGINEER

To the Honorable Board of Selectmen :

Gentlemen :

I beg leave to submit the following account of work carried out by the Engineering Department during the past year.

A plan, with profile and estimate of cost, was made for a 12 inch drain under the railroad track at Atlantic Street to care for the surface water from Holmes Terrace and Atlantic Street. This work will probably be carried out the ensuing year, the Plymouth Cordage Company, from whose lands the larger part of the surface water comes, paying two-thirds of the cost and the Town one-third.

Surveys have been made, profiles drawn and grades given for the construction of 840 feet of 20 inch and 290 feet of 15 inch drain on Standish Avenue. This drain takes the surface water from a large part of Standish Avenue and from the side streets of Savery Avenue, Cordage Terrace and Cherry Street, directly into Hedges Brook near Bourne Street. Suitable catch basins built at the intersection of Standish Avenue with Cherry Street and Cordage Terrace will keep sand out of the pipe and should materially check the heavy washing that has annually occurred here.

Surveys were made and lines and grades given for 220 feet of 8 inch sewer on Alden Street and 610 feet of 8 inch sewer on South Street to a point about 75 degrees south of No. 53 South Street. By making a maximum cut of 13½ feet, it has been found possible to extend this South Street sewer when desirable, along South Street past Towns Street to a point near the house of William Raymond.

Grades have been given for all new curbs and granolithic

sidewalks constructed during the year, and their areas have been measured.

All house sewer connections reported through the year as having been made have been located and plotted on cards that are filed alphabetically according to streets.

Miscellaneous work has been done for the Cemetery Commissioners in making lot measurements, etc., and line and grade established for a new concrete approach to the tomb in Oak Grove Cemetery.

In conjunction with work carried out by the Assessors, the street line work as described in last year's report has been continued.

Lines and grades have been given for a proposed new street built by John Peck west from Standish Avenue, and a plan of Nicks Rock Road from Standish Avenue to Braunecker Farm has been prepared for and approved by the Board of Survey.

Respectfully submitted,

ARTHUR E. BLACKMER,

Town Engineer.

REPORT OF SUPERVISOR OF SHORES

To the Honorable Board of Selectmen:

I herewith submit the following report for the year ending Dec. 31, 1918.

The clam industry has been prosperous in the past year for the few men who have followed the business. The Canning Plant has been a help and furnished employment for a number of girls. I estimate that more than seven thousand bushels have been taken from the flats and clams are still very plentiful and of excellent quality.

Respectfully,

ALFRED HOLMES, *Supervisor.*

HARBOR MASTER'S REPORT

To the Honorable Board of Selectmen:

I herewith submit the following report for the year ending December 31, 1918.

There has been little business during the past year requiring the services of the Harbor Master as a large proportion of the coal has been brought by rail.

Not as many fish landed here as in 1917. There have been quite a number of foreign steamers with sisal for the Plymouth Cordage Company.

Respectfully,

ALFRED HOLMES, *Harbor Master.*

REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen:

I submit the following report for 1918.

The State Forester in his annual report says that more damage was done by forest fires in 1918 than any previous year. This was largely due to the dry weather the early part of the season. A territory estimated at 950 acres was burned over in Plymouth, but as the greater part of this land had been previously burned over, the property loss was very small. There were two arrests during the year for violation of the fire laws. Both were convicted and paid fines in the local court. No equipment has been added the past year. The amounts paid in have been \$201.00 from the N. Y., N. H. and H. R. R. for railroad fires, \$12.35 for a bon fire in Manomet, and \$11.55 for a fire in Kingston. The total expenses have been \$2,026.15. I advise the purchase of a light truck to be used in places not accessible for the heavy truck.

An appropriation of \$2,500.00 is recommended for 1919.

Respectfully,

IRA C. WARD, *Forest Warden.*

List of 1918 Deputy Forest Wardens.

Elmer E. Raymond, Assistant Forest Warden. W. S. Bumpus, John W. Churchill, H. O. Whiting, Benjamin F. Raymond, James H. Nixon, John F. Raymond, L. B. R. Barker, George W. Douglass, E. P. Bartlett, James W. Hazen, Wallace J. Miles.

TREE WARDEN

To the Honorable Board of Selectmen:

I hereby submit my report for the year 1918.

Appropriated March 23, 1918,	\$1,200 00	
Appropriated September 28, 1918,	300 00	
	<hr/>	\$1,500 00

Payments.

Superintendent,	\$309 80	
Labor,	545 93	
Teams,	203 70	
Hardware and tools,	93 80	
Insecticides,	306 90	
Telephone,	22 25	
All other,	17 44	
Total payments,	<hr/>	\$1,499 82
Balance to excess and deficiency,		<hr/> \$ 18

The shade trees have been well cared for as usual, although time and other causes are gradually taking toll of some of our largest and oldest elms. Several of them have been removed the past year, the most notable being one of the group in Town Square and the one opposite the Central Fire Station. There are several more to be removed, some entirely dead and others in such condition as to cause more or less danger to public travel.

There are also many dead limbs to be removed and pruning to be done. Quite a number of trees have been more or less

damaged by automobile accidents and by horses gnawing the trees; in the latter case I wish to call the attention of drivers and owners that there is a heavy fine for such damage.

Several new trees were set out and more could be added this year to good advantage.

Owing to the higher costs of material, labor, supplies, etc., I would respectfully recommend an appropriation of \$1,500.00 for the ensuing year.

CALVIN S. MIXTER, *Tree Warden.*

GYPSY AND BROWN TAIL MOTH ACCOUNT

Dr.		
To appropriation,		\$5,000 00
Cr.		
By supt.,	\$780 77	
Labor,	1,801 74

Miscellaneous,	40 00	
Balance,	01	
	<hr/>	\$5,000 00

During the past year, the residential sections of the town have been kept in good condition, by carrying on the work as in previous years.

In the outlying districts, more work must be done, especially to protect the cranberry industry. The Cranberry Growers' Committee on Moth Work, after having inspected the bogs very carefully, have found them badly infested with Gypsy Moths. In some cases considerable damage has been done, with the prospects of much more damage sure to occur in the next year, and for some time to come. The cranberry industry means a great deal to Plymouth, for there are 1,233 $\frac{1}{4}$ acres, assessed at a valuation of \$629,852 00. This department is ready to give advice or assistance to cranberry growers at any time.

Considering the protection I know these people and others must have, I respectfully recommend an appropriation of \$6,000.00 for this department for the ensuing year.

A. A. RAYMOND, *Superintendent.*

SEALER OF WEIGHTS AND MEASURES

Plymouth, Mass., Jan 21, 1919.

To the Honorable Board of Selectmen,

Gentlemen: In compliance with the public statutes I herewith submit my report for 1918, as Sealer of Weights and Measures.

Property of the State in the Department.

One brass beam scale and cabinet.

One each 50-lb., 25-lb., 20-lb., 10-lb., 5-lb., one 4-lb., one 2-lb., 1-lb., 8-oz., 4-oz., 1-oz., $\frac{1}{2}$ -oz., $\frac{1}{4}$ -oz., nickle.

Dry measure, $\frac{1}{2}$ -bushel, 1 peck, $\frac{1}{2}$ -peck, one 2-quart, one quart, iron.

Linear Measure, one steel tape, one 1-yard measure, brass.

Working Set Belonging to the Town.

Nineteen 50-lb. weight, iron; one 25-lb., one 10-lb., one 5-lb., weight, nickle; one 4-lb., one 2-lb., one 1-lb., one $\frac{1}{2}$ -lb.; one 4-oz., one 2-oz., and 1-oz.; one $\frac{1}{2}$ -oz., one $\frac{1}{4}$ -oz., one $\frac{1}{8}$ -oz.

Dry Measure, one $\frac{1}{2}$ -bushel, one peck, $\frac{1}{2}$ -peck, 2 quart, wood.

Liquid measure, one 5-gallon, one 3-gallon, one 2-gallon, 1-gallon, one 2-quart, one 1-quart, one pint, one $\frac{1}{2}$ -pint, tin.

One portable balance with case.

One hanger weight, nickle.

One sealer case with tools.

One hand press seal.

One sealing clamp.

Wire, nickle, paper and aluminium seal, marking acid, record book, steel alphabet, dies and safe.

Scales, Etc., Tested.

Scales,	Sealed	Adjusted	Not Sealed	Con.
Platform over 5,000,	15	1	16	
Platform under 5,000,	141	5	16	
Counter scales,	9			
Balance scales,	7			
Spring balance,	63			
Computing scale platform,	15

Sealing fees,				\$108 22
Fund collected and handed to the Treasurer,				\$108 22

I recommend an appropriation of \$800.00.

F. L. ST. GEORGE,

Scaler of Weights and Measures.

REPORT OF PARK COMMISSIONERS

To the Honorable Board of Selectmen and Citizens of Plymouth:

During the past year the various parks and Training Green have been taken care of as usual.

No real improvements have been made except at Morton Park. Here we are pleased to say that a decided improvement has begun there, i. e. the cleaning out of the oak wood on several acres that were badly infested with the Gypsy Moth and where the white pine and other varieties of trees would warrant the taking out of all the oak.

At a special meeting of the Finance Committee on September 28, an appropriation of \$500 was granted us for the cutting, piling, etc., of wood at Morton Park.

This sum has been used by us exclusively for this purpose. (95) ninety-five cords of wood being cut and sold for \$570.

Out of the regular appropriation for Parks in 1918, 63½ cords of wood were cut and sold for \$254, making a total of 158½ cords of wood taken from the Park in 1918.

We are satisfied that this is making a good start in the right direction, by starving out the Gypsy Moth, which we believe is the only permanent way of getting rid of them, getting a new and different kind of growth of wood started and also allowing the public a chance to get some fuel at a moderate price.

We recommend an extra appropriation of \$500 for the extension of the same work for the ensuing year.

Last spring, 1,000 two year old spruce, Austrian pine and

—white pine were purchased of the State Nursery and planted in the park, also several hundred white pine were transplanted in different places.

We are sorry to note that some of the boys think that these trees are planted and taken care of for their special use at Christmas time. We would especially advise parents to warn their children against mutilating or carrying away shrubs or trees from any of the Parks.

Owing to war conditions the receipts from the Bath Houses were not quite as large as in 1917.

Stevens Field Playground is still being graded and filled and we recommend that the unexpended balance of \$56.13 from last year and an additional sum of \$150 be appropriated to defray the expenses at this place for the coming year.

The board walks on Training Green are in very poor condition and it looks very doubtful as to whether or not they can be made to give service for another year. Thus the question arises whether we have some more new board walks or a substantial concrete walk.

Your Park Commissioners recommend the latter as it would mean something permanent and the most economical in the end.

We recommend \$1,000 for a concrete walk on Training Green.

We ask for the ensuing year an appropriation of \$1,800 for the care and maintenance of parks and bath houses, \$200 for Training Green. Also the unexpended balance of \$56.13 left over from last year and an additional sum of \$150 to defray the expenses at the Stevens Field Playground. Also an appropriation of \$1,000 for concrete walks at Training Green.

PLYMOUTH PUBLIC LIBRARY

The Directors of the Library respectfully submit the following report for the year ending December 31, 1918.

Notwithstanding the many demands made during the year upon the time of the reading public by the necessities of the Great War, viz: the work of the Red Cross, the various bond loans, the fact that the Library was closed four evenings of each week from January 31, to April 15 to conserve fuel, and entirely closed from September 27 to October 21 on account of the epidemic of influenza, yet the work of the Library and its use to the public were greater than ever before in its history.

The total circulation of the books of the Library for home reading was 36,529 volumes (adult 22,658, juvenile 13,871) being an increase of 2,043 over the circulation of 1917.

The attendance at the Library for reading and reference was 10,528 adults and 12,340 juveniles—total 22,868.

1,188 volumes were added to the Library during the year by purchase and gift. 283 volumes and 52 magazines were bound. The Plymouth Book Club presented their usual collection of good books and the Arts and Crafts Committee of the Plymouth Woman's Club added to their collection of Arts and Crafts, books and pictures of colonial houses, furniture, etc., making a very valuable and unusual collection.

Miss Mary Pratt gave one hundred dollars for the purchase of juvenile books, and about 50 volumes were given by Mrs. Levy Mayer, about 500 volumes by Mrs. Richard Morgan, Mr. Charles S. Davis, and Mr. Russell Davis, 18 volumes by Miss Clara Litchfield, and numerous other volumes by other friends of the Library.

The Library also received a bequest under the will of the late Benjamin Marston Watson of Plymouth of his botanical, horticultural and scientific library of about 1,000 volumes.

The Library also received a handsome filing case from Miss Mary Grattan Bartlett.

During the year about 4,000 donated volumes of books and periodicals were sent from the Library to the various camps and naval stations for the use of the soldiers and sailors.

In April the first assistant Miss Smalley left the Library to enter the U. S. Service at Washington and her successor Miss Longfellow left in September to be married.

Considering the various disadvantages of the year, the Directors are gratified that they can report the best year of the work and usefulness of the Library in its history, largely owing to the faithful and conscientious services of Miss Kerr, the librarian, and her assistants.

WILLIAM HEDGE,

President.

FOR THE DIRECTORS.

BY-LAWS.

Adopted by the Town of Plymouth under article fifteen at the Town Meeting held March 23, 1918, and approved by the Attorney General on April 2, 1918.

There shall be an Advisory and Finance Committee consisting of fifteen citizens of the Town to be appointed by the Moderator within thirty days following the meeting at which these By-Laws are adopted.

Five members of said Committee shall be appointed for the term of one year, five members for the term of two years, and five members for the term of three years, and thereafter five members shall be appointed by the Moderator of the annual Town Meeting, not more than thirty days after the final adjournment of the annual Town Meeting, to hold office for the term of three years.

No Town officer shall be eligible to membership on this Committee, and no member on a special committee of the Town shall have a vote as a member of the Advisory and Finance Committee, on any matter effecting the duties of, or expended by such special committee.

The Advisory and Finance Committee shall meet for the purpose of organization each year within thirty days after notice of the appointment of new members.

Said Committee shall choose its own chairman and secretary.

Within ten days after the Committee is organized, the secretary shall notify the Selectmen of such organization in writing.

It shall be the duty of the Advisory and Finance Committee to consider all matters proposed to be acted on at all Town meetings, except such matters as may have been especially re-

ferred to the Committee appointed for that purpose; except that, in no case shall the Committee make any recommendation pertaining to the candidacy of any person for any office, nor shall it make any recommendation or suggestion in regard to any question involving license for the sale of intoxicating liquors, or in regard to any article involving the adoption of constitutional amendments.

It shall be the duty of the Selectmen after drawing the Town Warrant to transmit immediately a printed copy of the warrant to each member of the Advisory and Finance Committee.

The report of the Committee to the annual Town Meeting shall be in print, but reports on all other Town Meetings shall be in such form as the Committee shall deem advisable.

The report of the Committee to the Town shall set forth clearly and concisely the appropriations it recommends the Town to make to defray Town charges for each year, together with such recommendations on other matters as in its judgment should be brought to the attention of the Town.

The Advisory and Finance Committee may appoint such sub-committees as it may deem advisable.

The Advisory and Finance Committee shall have authority at any time to investigate the Town's accounts and management, and the books, records and accounts of all departments of the Town shall be open to the inspection of the Advisory and Finance Committee or any of its authorized sub-committees and any person employed by it.

A true copy, Attest:

GEORGE B. HOWLAND, *Town Clerk.*

TOWN WARRANT

To either of the Constables of, the Town of Plymouth, Commonwealth of Massachusetts:—

GREETINGS:

In the name of the Commonwealth you are hereby directed to notify and warn the Inhabitants of Plymouth qualified to vote in elections and town affairs, to meet in the Armory in said Plymouth on Saturday the first day of March, 1919, at fifteen minutes before six o'clock in the forenoon, and in said Armory in said Plymouth on Saturday the twenty-second day of March, 1919 at two o'clock in the afternoon, to act on the following articles to wit:—

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose all necessary Town Officers. The following officers to be voted for all on one ballot, viz: Five Selectmen, Town Clerk, Town Treasurer, Collector of Taxes, one member of a Board of Health for three years, one Assessor for three years, one Overseer of the Poor for three years, one Water Commissioner for three years, one member of a School Committee for three years, one Park Commissioner for three years, three Constables, three members of a Committee on Agawam and Halfway Pond Fisheries, Tree Warden; and one Cemetery Commissioner for three years; and to vote by ballot "Yes" or "No" in answer to the following question:—

"Shall licenses be granted for the sale of intoxicating liquors in this Town?"

The polls for the election of officers and the votes on the foregoing question, will be open at the Armory at fifteen minutes before six o'clock in the forenoon on said Saturday the first

day of March, 1919, and may be closed at three o'clock in the afternoon. Both of said days will constitute the annual meeting and this call is issued in accordance with the vote of the Town passed June 5, 1897 as amended March 2, 1903 and April 2, 1904.

Article 3. To hear the reports of the several boards of officers and committees of the Town, and act thereon.

Article 4. To see if the Town will authorize the Town Treasurer, with the approval of the Selectmen or a majority thereof, to borrow during the financial year beginning January 1, 1920, in anticipation of the revenue of said year, such sums of money as may be necessary for the current expenses of the Town, giving the notes of the Town therefor, payable within one year from the dates thereof. All debts incurred under authority of this vote shall be paid from the revenue of said financial year.

Article 5. To make the necessary appropriations to defray the expenses of the Town, and for other purposes, and to raise such sums of money as the Town shall deem expedient.

Article 6. To take such action as the Town may see fit in aid of the Plymouth Public Library.

Article 7. To see if the Town will appropriate a sum not exceeding two hundred and fifty (\$250) dollars in aid of the Manomet Public Library.

Article 8. To see what appropriation the Town will make for the care and improvement of the various Parks and of the Training Green.

Article 9. To see if the Town will appropriate a sum not exceeding two hundred and twenty-five (\$225) dollars, to pay the expenses of the observance of Memorial Day.

Article 10. To see if the Town will appropriate a sum not exceeding two hundred and fifty (\$250) dollars for the use of the Plymouth County Farm Bureau.

Article 11. To see if the Town will appropriate the sum of thirteen hundred and forty-nine 35-100 dollars (\$1349.35) to

the Health Department appropriation, the same to be used in paying outstanding obligations, and bills contracted in 1918.

Article 12. To see if the Town will appropriate the sum of seven hundred (\$700) dollars, the same to be expended on Bartlett Road in Manomet in building a permanent road. (By petition).

Article 13. To see if the Town will appropriate the sum of fifteen hundred (\$1500) dollars; to deepen the bed of Eel River from Warren Avenue down. (By petition).

Article 14. To see what action the Town will take in regard to building a permanent road from the State Highway at the Manomet Church to White Horse Beach, and to make the necessary appropriation therefor. (By petition).

Article 15. To see if the Town will appropriate the sum of one thousand (\$1,000) dollars to help pay the expenses of the public reception to the Plymouth men who have served with the Military and Naval Forces of the United States. (By petition).

Article 16. To see if the Town will authorize the transfer of the sum of eleven hundred and three and 13-100 dollars (\$1,103.13) the same being the balance of overlay of taxes from 1916, to overlay of 1917.

Article 17. To see if the Town will authorize the use of four thousand (\$4,000) dollars of the overlay of taxes of 1918 to reduce the tax levy of 1919.

Article 18. To see what action the Town will take in regard to the salaries of Town officers.

Article 19. To see if the Town will reconsider and rescind the vote of the Town passed at a meeting of the Town on March 25, 1911, authorizing the Selectmen to subscribe for or purchase stock of the Plymouth and Sandwich Street Railway.

Article 20. To see if the Town will accept Chapter 154, Acts of Massachusetts for 1903, providing for the establishment of a Board of Public Works; and to take such other action thereon as may be necessary.

Article 21. To see what action the Town will take in regard to the erection of a Town Hall, to make an appropriation therefor, and to authorize the issue of notes or bonds of the town for said purpose.

And you are hereby required to serve this warrant in the manner prescribed by a vote of the Town, by posting notices thereof in three public places in the Town, seven days at least before the meeting, one of which postings shall be in Chiltonville and one in Manomet Ponds, and also by publishing the warrant in the newspapers published in Plymouth; and make return thereof with your doings thereon at the time and place above mentioned.

Given under our hands this twentieth day of February, 1919.

WILLIAM T. ELDRIDGE,
EPHRAIM D. BARTLETT,
D. H. CRAIG,
GEORGE W. BRADFORD,
HENRY O. WHITING,
Selectmen of Plymouth.

Plymouth, ss.

February 21, 1919.

Pursuant to the foregoing warrant, the Inhabitants of Plymouth qualified to vote in elections and Town affairs are hereby notified to meet at the time and place and for the purpose therein mentioned.

JOHN ARMSTRONG,
Constable of Plymouth.

Bonds,	\$7,566 66
Interest,	2,144 48
	<hr/>
	\$9,711 14

It is with a sense of personal loss that the Commissioners at this time record the death of former Superintendent Richard W. Bagnell, on April 1, 1918.

Mr. Bagnell was appointed Superintendent May 11, 1874 and served in that capacity until 1901, at which time he was made Assistant Superintendent and held that office until his death in April 1918, making a continuous term of service of nearly forty-four years.

The Commissioners wish to express their appreciation of Mr. Bagnell's unfailing devotion to his duty and his unwavering loyalty to the interests of the Plymouth Water Works.

The new work of the Water Department for the year 1918 has not been as large in amount as in previous years, due to the difficulty in getting material and the desire of the Commissioners to do only such work as it appeared could not well be postponed.

There has been laid during the year, as recommended in our last report, 549 feet of 6" pipe and 184 feet of 4" on Prince Street and Cordage Street, also 336 feet 6" and 83 feet of 4" have been laid on Cordage Terrace for houses of the Plymouth Cordage Company, and 240 feet of 4" pipe at Nicks Rock Road to the house of Francis Jacintho.

The old 2" pipe on Spring Street gave considerable trouble during the cold weather and to replace it there was laid 255 feet of 4" pipe, connecting the 16" pipe on Summer Street with the 6" pipe on High Street.

A 2" galvanized pipe on Hedges Court was replaced with 580 feet of 4" pipe.

The total cost of the above work including cost of changing services on North and Water Streets was \$2,536.22.

For the ensuing year we recommend 1,300 feet of 6" pipe on Union Street from Water to Fremont, 750 feet of 6" pipe on Cushman Street from Court Street to Allerton Street, and 450 feet of 6" pipe on Allerton Street between Samoset Street

and Cushman Street. The estimated cost of this new work including changing services is \$5,000.

We therefore recommend an appropriation of \$5,000 for construction and \$18,000 for maintenance for the year 1919.

Respectfully submitted,

JOHN W. CHURCHILL,
JOHN H. DAMON,
WILLIAM R. MORTON,
ROBERT C. HARLOW,
EUGENE DORR.

Water Commissioners.

SUMMARY OF STATISTICS.

Published by Request of the New England Water Works Association.

Plymouth (Mass.) Water Works.

Population by census of 1915, 12,926.

Date of Construction, 1855.

By whom owned. Town.

Source of supply, Great and Little South Ponds.

Mode of supply, Gravity for low service and pumping for high service.

PUMPING.

1. Builders of pumping machinery: Barr & Worthington.
2. Description of fuel used:
 - (a) Kind: Bituminous.
 - (b) Brand of coal: New River.
 - (c) Average price of coal per gross ton delivered: \$10.57.
 - (e) Wood: No wood used.
3. Coal consumed for the year 695,546 pounds.
4. Amount of other fuel used. None.
5. Total equivalent coal for the year, $3:4 = 695,546$ pounds.
6. Total pumpage for year: 341,962,000 gallons with 3% allowance for slip.
7. Average static head, 65 feet.
8. Average dynamic head, 72 feet.
9. Number gallons pumped per pound of coal: Worthington, 399.0; Barr, 507.
10. Duty of Barr Pump, 30,400,000; Worthington, 23,900,000.

COST OF PUMPING FIGURED ON PUMPING STATION

EXPENSES, viz: \$7,478.22.

11. Per million gallons against dynamic head into direct pipe, \$21.87.
 12. Per million gallons raised one foot high, (dynamic) \$0.30.
-

COST OF PUMPING FIGURED ON TOTAL MAINTEN-
ANCE, viz: \$10,149.56.

13. Per million gallons against dynamic head into direct pipe, \$51.55.
 14. Per million gallons raised one foot high (dynamic) \$0.72.
-

SERVICES.

16. Kind of pipes; lead and cement lined.
17. From one-half to four inches.
18. Extended 701 feet.
20. Total now in use, seven miles, 4,545.5 feet.
21. Service taps added, 35.
22. Number now in use, 2,733.
23. Average length of service, 20 feet.
24. Average cost of service, \$14.51.
27. Motors and elevators added: None.
28. Number now in use, one Motor.

DISTRIBUTION.

1. Kind of pipe used: Cement lined and wrought iron, principally cement lined.
2. Sizes: from 2 inch to 30 inch.
3. Extended, 2,227 feet.
4. Discontinued, 525 feet.
5. Total now in use, 56 miles, 2,875 feet.
6. Cost to repair per mile, \$10.20.
7. Number of leaks per mile, .53.
8. Small distribution pipes, less than 4 inch, 10 miles, 860 feet.
9. Hydrants added, 2 post. Discontinued, none.
10. Hydrants now in use: 228 public; 52 private.
11. Stop gates added, 5. Discontinued, 1.
12. Number now in use, 659.
13. Small stop gates less than 4 inch, 122.
14. Number of blow-offs, 42.

N. REEVES JACKSON,

Collector of Water Rates.

SUPERINTENDENT'S REPORT

To the Board of Water Commissioners:—

Gentlemen:—I herewith submit the annual report of the Superintendent of the Plymouth Water Works for the year ending December 31, 1918.

ACCOUNT OF PIPES LAID FOR YEAR ENDING DECEMBER 31, 1918.

LOCATION	Length in feet.	Size in inches	Cost of Pipe Laid	Changing Services	Total
Cordage Terrace	336	6	Cost of Pipe \$218.40 Labor 99.71 Pipe 41.50		359.61
Prince Street	549	6	554.33		729.76
Spring Street	184	4	175.43		326.40
Nicks Rock Road	255	4	260.85	65.55	234.30
North Street	240	4	234.30		318.95
Hedge Court	580	4	478.50	318.95 88.70	567.20
TOTALS	2,327		2,063.02	473.20	2,536.22

The winter of 1917-1918 was probably as severe as any winter this department has experienced for many years.

The Weather Bureau records indicate that not since 1874 has this section been afflicted with such long continued, extreme cold.

The effect of this has been to materially increase the maintenance of this department. Approximately 125 services were

frozen, as were also some dead ends on small pipe. About 75 services were thawed out at an expense of \$619.62, and water was carted in some cases where thawing out was not feasible. On both metered and unmetered services water was kept running to prevent freezing, with the result that long hours of pumping were necessary and a heavy draft was made on our coal pile at a time when coal was expensive and not abundant.

The average daily use of water increased to 1,563,000 gallons, an increase of 280,000 gallons daily over the next highest year, 1914, when it was 1,383,000 gallons daily.

RAINFALL.

The usual rainfall table is shown on the following page.

This table has interest and significance in that it shows the lowest rainfall during 1918 that has ever been recorded by our rain gage at the pumping station during the twenty-eight years that records have been kept. The first four years of rainfall shown in this table, 1887 to 1890, were taken from records kept by Miss Lou Knapp, and since 1891 these records have been kept by our engineers at the pumping station.

The total rainfall for the year 1918 was 34.92" while the average annual rainfall was 45.91". It will thus be seen that the 1918 rainfall was substantially 11" below normal.

The effect of this extremely low rainfall during a year when consumption has been a maximum is shown on Plate 1, which gives fluctuations of pond height and storage volume.

Table showing total rainfall since 1887, and monthly rainfall since 1891.
Also annual variation from the average in inches.

YEAR	JAN.	FEB.	MAR.	APRIL	MAY	JUNE	JULY	AUG.	SEPT.	OCT.	NOV.	Dec.	TOTAL	Variation from av. in inches

Totals	3	4	2	18	10	34	66	419	556	126,933,000

METERS.

The above table shows the number of meters of various sizes in use, and the total quantity of water that passed through these meters in 1918. As a matter of possible interest the subdivision of metered use is made among various classes of consumers.

The total number of services on January 1, 1919 was 2,733 and the total number of meters 556, therefore 20 per cent. of the services are metered. The total consumption for the year was 570,453,000 gallons, of which 126,933,000 gallons, or 22 per cent. was metered.

CONSUMPTION FOR 1918.

Plate II is the customary diagram showing the average daily consumption for 1918.

The low service consumption, indicated by the dotted line on the diagram, is determined by records of the Venturi meter at the pumping station. The high service consumption is the

2. Effect of Little Rock from before 1880 to 1885

1880-1885

quantity pumped, with 3% allowance for slip, and the total consumption is the combined high and low service.

The fluctuations in consumption due to extremes in weather conditions are clearly shown. The winter of 1917-18 was the most severe one in Massachusetts since 1874 according to Weather Bureau records, and it is to this severe and protracted cold weather that the, for us, unprecedented consumption of 1,563,000 gallons daily was responsible.

The average daily low service consumption for the year was 626,000 gallons compared to 526,000 gallons daily in 1917, an increase of 19%, while the average daily high service was 937,000 gallons in 1918 compared to 768,000 gallons in 1917, an increase of 22%. The total average daily consumption of 1918 of 1,563,000 gallons is an increase of 21% over the similar total of 1,294,000 gallons in 1917.

The maximum daily average consumption was during the week of February 10th, when it reached the figure of 2,290,000 gallons for total daily average for one week, of which high service was 1,451,000 gallons and the low service 839,000 gallons.

The total consumption for the year was 570,453,000 gallons of which the high service was 341,962,000 gallons, or 60%, and low service was 228,491,000 gallons or 40%.

POND ELEVATIONS AND STORAGE DEPLETION.

Plate 1 is the customary chart showing pond elevations and resulting fluctuations in storage volume from July 1905 to December 1918.

In July, 1917, for the first time since these records have been kept, Great South Pond reached an elevation of 106.0 or full pond, and the available storage in Great and Little South Pond was nearly 855 million gallons.

During the first five months of 1918 the pond level and con-

sequent storage volume did not change materially, but since April there has been a pretty uniform rate of fall, until in December Great South Pond reached an elevation of 103.2, as compared with 106.0 of July 1917, eighteen months earlier. The available storage on January 1, 1919 was about 520 million gallons.

By reference to Plate I it will be seen that the year 1910 with a rainfall of 38.88" was the year of lowest rainfall since 1905, with the exception of the rainfall of 34.92" in 1918. Our chart would seem to indicate that the low rainfall in 1910 was reflected by low ponds in 1911 even with normal rainfall in the latter year. If it should prove that the unprecedented low rainfall of 1918 is a forecast of pond elevations for 1919, we may perhaps expect lower ponds during the ensuing year than any we have yet known.

The following table shows the average daily water-shed yield and the average daily consumption for each year since 1908.

Year	Av. Daily Use	Av. Daily Yield
1908	1,220,000	1,174,000
1909	1,267,000	1,295,000
1910	1,251,000	1,056,000

WATER ANALYSIS.

In accordance with their usual custom the State Department of Health have made their regular analysis of water during the year 1918 and a copy of these analyses are appended herewith.

Respectfully submitted,

ARTHUR E. BLACKMER,

Superintendent.

ANNUAL REPORT

OF THE

FIRE COMMISSIONER

OF

PLYMOUTH, MASSACHUSETTS

For the Year Ending Dec. 31

1918

REPORT OF FIRE COMMISSIONER

To The Honorable Board of Selectmen:

Gentlemen:—

The records of the Department accompanying the report for the year 1918 show a greater number of calls answered than for any previous year for some time past.

In addition to calls for service at fires, three calls for the Pulmotor were answered, one of these being for drowning accident and two for service at the Jordan Hospital, and attention is called to the fact that the Department responded to four calls outside the Town limits, a call for the train wreck on the Middleboro branch of the N. Y., N. H. & H. R. R., and one for a flooded cellar at the Plymouth Electric Light Company.

The calls for the Pulmotor, train wreck and services at the Electric Light Plant emphasize the value of a well equipped and well organized department ready at all times to respond to calls for assistance in times of emergency.

ORGANIZATION

The apparatus at the Central Station and manned by the Permanent Force have answered all first alarms during the past year, with the Call men assigned to the Central Station answering the alarms covered by this station, and the Call men at the North Station answering the alarms covered by the North Station.

ROSTER OF THE DEPARTMENT.

Fire Commissioner,	Robert C. Harlow
Chief of Department,	Albert E. Hiller
Deputy Chief of Department,	Clifton Hatton

CENTRAL STATION.

Combination B—Hose and Pumping Engine.

Captain—Fred W. Paty (*Permanent*)

Lieutenant—John M. Holmes (*Call*)

PERMANENT MEN

E. C. Chandler	C. T. Shaw
P. W. Gardner	A. Terry
A. A. Raymond	E. G. Gardner
G. A. Wood	

CALL MEN.

L. F. Battles	F. Manter
W. W. Baker	A. E. Nickerson
F. H. Donlavey	L. White
E. Downton	E. F. Nutter
W. E. Hurd	V. J. Peterson
E. K. Morse	J. Sampson
D. Sullivan	

Ladder Company No. 1.

Captain—H. F. Robbins (*Permanent*)

Lieutenant—L. Hedge (*Call*)

CALL MEN.

G. J. Anderson	C. H. Hatton
J. E. Beauregard	A. Morse
G. C. Bunker	H. Reinhardt
R. Fogarty	C. Alden

Combination A (Chemical and Hose) and Combination D (Chemical and Hose) quartered at the Central Fire Station responds to still alarms with members from the Permanent Force.

Steamer No. 1 quartered at the Central Station responds for Second Alarm Fires.

NORTH STATION.

Combination Engine and Ladder Company, No. 2.

CALL MEN.

Captain—Henry Cash

Lieutenant—John Stephan

W. F. Delano

J. Ruprecht

N. W. Gray

R. Thom

E. C. Hardy

H. P. Webber

W. S. Pierce

B. Wolf

HOSE

The usual inspection, testing, and repairs to the hose in the Department has been made and five hundred feet of new hose added to replace that unfit for service.

HYDRANTS.

The hydrants under the care of the department were given the proper inspection and preparation for freezing weather conditions by the permanent members of the organization.

FIRE ALARM SYSTEM.

A new set of batteries was purchased during the year and the relay carefully cleaned and overhauled. It will be necessary this coming year to replace several circuits of the over-

head Signal System so that this important branch of the department may be maintained at its highest efficiency.

BUILDINGS.

The buildings of the department have received the necessary care and attention, and there has been no expense except for maintenance.

INSPECTION OF BUILDINGS, ETC.

Inspection of hotels and lodging houses as required by the State Police was made by the Chief of Department and reports filed at the State House as required by law.

Licenses to build and operate garages have been granted in accordance with the State regulations and inspections made of those in operation.

Permits to sell fireworks, firecrackers, etc. were again withheld on advice from the State authorities.

FIRE RECORD.

During the year 1918 the department has answered 34 bell, 94 still alarms. Of this number, three were for the Pulmotor. The causes of alarms were as follows:

Out of Town,	4	Overheated stoves,	4
Gas Leaks,	2	Cigarettes,	2
Careless use of matches,	3	Incendiary and supposed,	7
Frozen water pipe,	2	Lightning,	2
Sparks from stove,	1	Sparks from locomotive,	2
Kerosene lamps,	1	Electric light wires,	2
Automobile,	3	Ashes from pipe,	3
Brush and rubbish,	30	Train wreck,	1
Candles,	2	Pulmotor,	3
Soot in chimney,	27	Needless and false,	24
Overheated furnace,	3		

In addition to the above the "No School" Signal was sounded 29 times and "Liberty Loan" Rally Call 8 times.

EXPENDITURES FOR 1918.

The expenditures for the maintenance of the department for the year were as follows:

Salaries and Wages—

Permanent Force,	\$11,600 36	
Call Force,	1,725 84	
Other Employees,	113 09	
Total Salaries and wages,	—————	\$13,439 29
Horse and auto hire,		19 25
Equipment and repairs,		1,795 73
Hydrant Service,		31 05
Fuel and light,		762 32
Maintenance, buildings and grounds,		183 90
Other expenses,		320 35
Total,	—————	\$16,551 89
Credits received for damages to Hydrants, etc.,		115 03
Total expenditures,		<u>\$16,436 86</u>

APPROPRIATIONS FOR 1919.

An appropriation of \$19,630.00 will be necessary to maintain the department at its present efficiency during the year 1919, apportioned as follows:

Salaries and Wages—

Permanent Force,	\$13,775 00	
Call Force,	1,755 00	
Other Employees,	100 00	
Total Salaries and wages,	—————	\$15,630 00
Equipment and repairs,		2,850 00
Hydrant Service,		100 00
Fuel and light,		650 00
Buildings and grounds,		200 00
Other expenses,		200 00
Total,	—————	\$19,630 00

The co-operation and spirit of the men in the service which has helped to maintain the efficiency of the department has been appreciated.

Respectfully submitted,

ROBERT C. HARLOW,

Commissionér.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

Town of Plymouth

For the Year Ending Dec. 31,

1918

SCHOOL DIRECTORY

	Term Expires
William M. Douglass, Chairman,	1919
Helen F. Pierce, M. D., Secretary,	1921
Walter D. Shurtleff, M. D.,	1920

The regular meetings of the School Board are held on the first and third Tuesdays of each month.

Superintendent of Schools, Charles A. Harris.

Office open from 8.30 to 12 a. m., and 1.30 to 4 p. m. every school day. Saturdays, 10 to 12 a. m.

Office hours of the Superintendent of Schools, 4 to 4.30 p. m., Mondays and Fridays. 7 to 7.30 p. m. every Wednesday.

Attendance Officer, John Armstrong.

NO-SCHOOL SIGNAL.

2—2 sounded and repeated at 7.15 indicates no session at the Senior and Junior High Schools.

2—2 sounded and repeated at 8.15 indicates no morning session in other schools.

2—2 sounded and repeated at 1 p. m. indicates no afternoon session.

REPORT OF SCHOOL COMMITTEE

We present herewith financial statement for 1918, and budget for 1919.

In these days of soaring prices it is hardly necessary to explain these increases, a large part of which is to be applied to teachers' salaries, and the balance is caused by raise in car fares.

The committee sustained a loss during the year when the Chairman, Mr. Edward W. Bradford, was compelled to resign, in order to take up Red Cross work in Greece and the Balkans.

We anticipate that next year we will be compelled to ask for enlarged school facilities in the north end of the town. This is a matter of which we have spoken before as a possibility in the near future. We now feel that we will be unable to wait longer than next year for the new building.

Following is the report of the School Superintendent and School Physician which we submit for your attention.

HELEN F. PIERCE,
WALTER D. SHURTLEFF,
WILLIAM M. DOUGLASS.

SUPERINTENDENT'S REPORT

To the School Committee of Plymouth:

I herewith submit for your consideration my sixth annual report.

With the school system of Plymouth consisting of three distinct units: (1) The Elementary Schools, (2) The Junior High School, and (3) The Senior High School, and with appropriations adequate for maintaining same, the responsibility for efficiency rests upon the school officials in charge of this important work, provided the department is unhampered in carrying into execution the policies which the committee deems best for the welfare of the schools.

The generosity of the townspeople, as manifested at the regular and special town meetings, toward the public schools cannot be over emphasized. When we consider that the present payroll is more than \$95,000, whereas ten years ago approximately \$50,000 paid all expenses of maintenance, one cannot but realize the attitude of the community toward the schools.

The recent vote of the town to increase the salaries has enabled the department to retain efficient talent, and the feeling among the teachers, nearly ninety in number, is evidence of their appreciation of the generosity of the voters.

Each year it has been the plan to incorporate something into the school system that makes for progress. The longer school day, so generally approved, was adopted by the School Board for the Senior and Junior High Schools. This plan meeting opposition, permanent adoption of the longer school day for the Junior High School was delayed, pending the production to the opposition of evidence sufficient to show its

advantages, and its general adoption in places progressive educationally.

It is conceded by educational experts that the length of the school sessions at our Senior High School is conservative. All evidence at hand from those in charge of educational systems elsewhere is to the effect that our change at the Junior High School is not only a decidedly progressive step, but that the length of sessions elsewhere are in excess of the plan for Plymouth.

In the report of the Special Commission on Education, which was filed with the legislature on Wednesday, January 29th, the longer school day was recommended.

Some of the advantages of the longer school day, permitting directed study, are as follows:

1. It affords an opportunity to teach the pupils how to study.

2. The school work is done under the supervision of the person most skilled in directing it—the teacher.

3. The school work is done in the institution specially equipped and fitted for study.

4. The work is done during the day.

5. It leaves the evening for the home, for the family, for social culture, recreation and entertainment. The evening does not belong to the school.

6. Pupils are under the teacher's influence longer.

7. The alternate recitation and study periods minimize fatigue.

8. It obviates study under unfavorable conditions.

9. It minimizes fatigue pursuant to evening study.

10. It reduces the amount of eye-strain due to evening study.

11. It enforces preparation by every pupil.

12. The plan divides the pupils' days into three distinct parts:

(a) time for work, (b) time for recreation, (c) time for sleep.

NEW BUILDING.

Some relief ought to be considered for the overcrowded condition in the north part of the town. The erection of a school building between the Knapp and Cornish buildings would afford relief at the Knapp and Hedge buildings and would simultaneously solve the problems at Cold Spring and Alden Street. It certainly would be unwise to postpone this matter longer. With a building in this vicinity the school children of Plymouth could be conveniently housed for a long period.

This new building could fittingly be named the Thurber School in honor of the late Miss Elizabeth Thurber, who was a member of the Plymouth School Committee 1887 to 1908.

TEACHERS.

In spite of the constant changes in the teaching corps, the efficiency of the school work is very satisfactory. Although few changes occur annually, fifty-two teachers have entered the service of the town during the incumbency of the writer.

By acts of 1914, teachers who have served in the public schools of the town for three previous consecutive years are on tenure, and are not subjected to annual elections.

The teachers already on tenure are as follows:

Helen G. Annis	Laura E. Brown
Arline M. Avery	Annie S. Burgess
Frances I. Bagnell	Mary M. Dolan
Addie L. Bartlett	Mabel F. Douglas
Gertrude C. Bennett	Agnes V. Eaton
L. A. M. Black	Helene E. Field
Grace Blackmer	Ruth M. Gammons
Grace N. Bramhall	Cora W. Gray
Walton E. Briggs	Charles A. Harris

Luey L. Hildreth	Susan M. Quinn
Lydia E. Holmes	Mary E. Robbins
Flora A. Keene	Ella F. Robinson
Grace L. Knight	Teresa A. Rogan
Maude H. Lermond	Hazel A. Ross
Helen H. Linnell	Elizabeth H. Sampson
Charlotte E. Lovering	Catherine W. Sampson
Elizabeth Mackenzie	Bertha H. Smith
Bertha E. McNaught	Helen D. Stranger
Grace R. Moor	Jennie F. Stratton
M. Alice Morong	Susan C. Thomas
Augusta M. Morton	William C. Whiting
Florence I. Murray	William I. Whitney
Jean Murray	Katherine G. Zahn
Katharine A. O'Brien	

Other teachers in service are as follows:

Hazel E. Barstow	Mildred Holmes
Hazel Bates	Helen F. Holmes
Crescentia Beck	Mary L. Jackson
Beatrice Bennett	Helen F. Klocker
Nina M. Brayton	M. Adeline Lahaise
Estella Butland	Ruth W. Lane
Alice M. Cagney	Margaret F. Lennon
Mary L. Cappannari	Marion F. Leonard
Gladys L. Cobb	Agnes A. Lisk
Amanda E. Collette	Margaret Longfellow
M. Etta Cooney	Anne M. Mackinnon
Florence B. Corey	Ruth Mansfield
Beatrice Curran	W. I. Mayo, Jr.,
Gertrude Darling	J. A. W. Pearce
Ethel M. Frizzel	Mary J. Pimental
Helen Getchell	Alice A. Preston
Ruth O. Hamilton	Dorothy Reed
Elizabeth Hett	Marion Reynolds

Helen E. Shurtleff
Della Spencer
Emma L. Squires

A. Ruth Toombs
M. Florine Tucker
Helen H. Worth

EVENING SCHOOL.

Evening schools were in session from October 15, 1917 to April 2nd, 1918.

Knapp School.

Number of males enrolled,	52
Number of females enrolled,	30
Average number belonging,	71.17
Average evening attendance,	60.01
Per cent of attendance,	84.31

The record of the evening schools from October 31, 1918 to Jan. 1, 1919, follows:

Number of males enrolled,	44
Number of females enrolled,	17
Average number belonging,	51.86
Average evening attendance,	43.94
Per cent. of attendance,	84.73

THE SUMMER SCHOOL.

The vacation school was held at the Burton building for a period of six weeks. There was an entering group of 116 pupils classified as follows:

Grade 4,	23
Grade 5,	44
Grade 6,	22
Grade 7,	22
Grade 8,	5
	<hr/>
	116

SIGHT AND HEARING TESTS.

The tests of sight and hearing have been made by the teachers, as required by law.

Number of pupils examined,	2,375
Number found defective in eyesight,	233
Number found defective in hearing,	37
Number of parents or guardians notified,	209

SCHOOL CENSUS, 1918. (April 1).

5 to 7 years, males,	218

SENIOR HIGH SCHOOL REPORT.

Mr. Charles A. Harris,
Superintendent of Schools,
Plymouth, Mass.

Dear Sir:

Permit me to submit to you my eighth annual report of the Senior High School.

The total membership for the year has been 316, a decrease of 5 from last year. That the membership has practically remained the same in spite of the increased cost of living, the great demand for labor, and high wages, speaks well for the place which the school holds in the community. There has never been a time in the history of the world when there has been and will continue to be such a demand for trained men and women. It has been proven over and over again during the past few years, that each year spent in school now will yield more than 100 per cent. interest to the individual later on. The great effort which is being made by parents, oftentimes with great sacrifice on their part, to keep their children in school would seem to indicate that they are fully alive to this fact. No pains have been spared to make the young people realize this and the result has been very gratifying. Many changes have occurred in the corps of teachers during the past year. Almira J. Coffin, teacher of science; Edna M. Sturtevant, who organized our domestic science department, and has done such remarkably efficient work during the past four years; Mary R. Miller, teacher of French; Helen W. Smith, teacher of English and Bookkeeping; Helen J. Bedell, teacher of Bookkeeping and Typewriting; Paulyle W. Flavell, teacher of German and French, resigned to accept more lucrative posi-

.

tions. Mr. John A. W. Pearce, teacher of mathematics, resigned to enter the army. All were experienced teachers and had made for themselves a secure place in the school and community, and their loss has been keenly felt. No matter how efficient a new teacher may be a change cannot be made without an interruption to the work which is plainly visible in the school. Without doubt the increase in salaries which has recently come to teachers will result in fewer changes in the future.

The following teachers were elected to fill the above positions: Anne M. McKinnon, Science and Mathematics; Ruth W. Lane, Domestic Science; Helen H. Worth, French; Helen Getchell, English; Agnes A. Lisk, Bookkeeping and Typewriting; Ethel M. Frizzel, Mathematics. Mr. Pearce, fortunately for the school is with us again after being discharged from the service. They are all doing good work and I believe we have been fortunate in securing their services. That a high grade of work and scholarship has been maintained in the several departments during the past year, a year that has been so full of influences which tended to take the minds of the pupils away from their work, the world war, influenza, etc., is an evidence of the devotion of the teachers to the high ideals of the profession which they have chosen.

The introduction of the longer school day and supervised study marks a new and important era in the history of the school, one which, in my opinion, will exert a greater influence over the lives of the young people than any change that has ever been made. Although the past four months have been so full of interruptions that a fair trial of it has not yet been made, yet the good resulting from it is already manifest.

Supervised study ought and I believe it will react in the following ways on the school: (1) it enables the instructor to teach the pupils how to study and use their minds; (2) it saves time; (3) it prevents waste of energy; (4) it makes for definiteness; (5) it aids discipline by keeping the child active

all the time; (6) it makes the class room a live workshop; pupils are not slow to appreciate that with the teacher at hand to help over hard places it is well worth while to concentrate on one study at a time and to economize the class room hour to the utmost; (7) it inspires pupils to study because they know how; (8) it provides an atmosphere of study—everyone is doing it; (9) it brings about a better mutual understanding between teacher and individual pupil; (10) it results in better prepared lessons, and should reduce the amount of home study in the first two years of High School.

Notwithstanding the additional hour in the school day, the teachers have taken up the work enthusiastically, and are unanimous in the opinion that already far better work is being done than ever before. The introduction of the longer school day and supervised study was made possible by installing and equipping the Lunch Room. We now have a well appointed Lunch Room, where appetizing and nourishing lunches are served daily at recess, from 11.50 to 12.15. It is self supporting and everything is sold at the lowest possible figure. No one except those who have known and seen what the pupils have eaten for their lunches heretofore can realize how much the school and pupils will be benefited by this arrangement. Parents are urged to visit the school during the lunch period and see for themselves what is being served to their children.

In closing this short report, I wish to express my appreciation and that of my associates for the cordial support given us by the School Committee and yourself.

WILLIAM C. WHITING.

Singing, "Song of Deliverance," S. Coleridge-Taylor

SCHOOL CHORUS

Singing of Class Song.

CLASS OF 1918.

Class Song.

1.

On wings of Time the years have fled,
And school days now gone by,
Leave with us tender memories
Of good old Plymouth High.
For when in distant future,
Of days long past we dream,
Then we'll recall our High School days,
And the year 1918.

2.

We've reached a turn in the Road of Life;
Henceforth our ways must part;
But a feeling of good fellowship
Remains in every heart.
And as through Life we journey,
When dark clouds endless seem,
Let's bring to mind the spirit
Of our class, 1918.

3.

Our town is proud of its boys "out there,"
And lads from Plymouth High
Are fighting in a foreign land
Ready to do or die.
For Liberty and Justice
They're facing foes unseen:
May God protect our country
Is the prayer of 1918.

Words by Alice McDougal

Music by Ethel E. Holmes.

JUNIOR HIGH SCHOOL REPORT.

Mr. Charles A. Harris,
Superintendent of Schools.

Dear Sir:

I submit for your approval, the first report of the Junior High School.

In September, 1917, the school was reorganized after the general plan of all Junior High Schools, by the grouping of the seventh, eighth, and ninth grades in one building, thus forming a new educational unit, so that secondary school subjects and methods begin in the seventh grade.

At present, the school day is made up of six 45-minute periods, 30 minutes being the limit of a recitation in the seventh and eighth grades, the remaining 15 minutes being given to study or assignment. At the close of each period, the pupils pass to other rooms, and by so doing, relax both mind and body. The result of this is renewed interest in a new subject. It is one good feature of the daily program and an excellent way to work off surplus energy. The number of periods per week for each pupil varies; the largest number occurring with those who take bench work or household arts. Pupils' free periods are given to study or anything else that may seem best for the individual.

On account of a flexible program, it frequently happens that a room teacher will have for supervised study, differentiated groups. The assignment for these different groups is always an English assignment. Foreign languages are supervised only by the teachers of those languages.

Pupils whose work at the end of the week is below standard, return on Monday afternoons. In some ways this plan is not proving satisfactory; it frequently happens that certain groups

who live at a great distance are unable to return and are liable to lose promotion at the end of the school year.

Provision is made in the program for individual differences. Besides the major subjects which all pupils are required to take, they are allowed some choice in election, beginning with the seventh grade where they may choose either manual training or a modern language. All subjects, both required and elective, continue through the seventh and eighth grades, with one exception: typewriting and bookkeeping begin as electives in the eighth grade and continue through the ninth grade. Pupils are allowed to continue the study of a foreign language only on condition that their work in English is satisfactory.

One of the aims of a Junior High School is providing for those who are forced to leave school. The pre-vocational subjects, such as commercial subjects, wood-working or household arts, offer excellent opportunities for these. A year or two will not make pupils skillful in these subjects, but they do acquire a certain amount of industrial intelligence which is an asset not only for themselves, but for the community.

Promotion by subject from the eighth grade only, went into effect last June, when four pupils who failed in mathematics were promoted to the ninth grade, on condition that they repeat that subject with the eighth grade the following September. These are now doing the work of the ninth grade in all subjects but mathematics. This they take with an eighth grade class. Had they been demoted, the tendency would be to leave school.

At the end of the school year it was thought best to eliminate formal graduation. A class of 100, consisting of pupils from both eighth and ninth grades, received certificates for promotion to the Senior High School.

Acting on your suggestion of last September, that retarded pupils in ninth grade be allowed to enter the Senior High School, provided that they had satisfactorily completed the

work of the eighth grade, and were 16 years old, or would be before January 1 of that year, five pupils from the ninth grade entered the High School last October on these conditions.

As far as it is practical, the work in English, history, and geography is based upon the reorganized outlines in these subjects. This year the course in English has been closely articulated with that of the Senior High School. This necessitated not only a change in the content of the subject but also the methods of teaching. Perhaps the greatest change was made in grammar. The grammar taught is the grammar of use—useless reviews are eliminated. A more extensive and varied course in reading was introduced.

The socialized spirit of the school is shown in its activities. One of these is the school orchestra, which meets every Thursday afternoon under the direction of the music supervisor. Credit is given to the members for faithful attendance.

The war with its resultant activities emphasized the patriotic spirit of the school.

The work of the Junior Red Cross, under the direction of the sewing supervisor, has been remarkably successful. This is done by volunteers who return three afternoons a week. Work on refugee garments is now going on.

In the cooking classes, girls were taught how to conserve food and to co-operate with the Food Administration. Posters made in the drawing class gave an added interest to the war activities.

The splendid spirit displayed in all "win the war" movements was manifested by the pupils' participation in contributions to Red Cross and Victory Boys and Girls, in purchasing Thrift and War Savings Stamps, and in services rendered the community on days of special observance.

Respectfully submitted,

KATHARINE A. O'BRIEN.

REPORT OF PRIMARY SUPERVISOR

Mr. Charles A. Harris,
Superintendent of Schools,
Plymouth, Mass.

Dear Sir:

I herewith submit my second annual report of the work of the primary grades.

Unusual conditions during the past year have made the school work difficult. Despite adverse circumstances, however, the teachers have made an earnest effort to keep the schools up to the required standards. At the same time, the unusual situations have afforded rare opportunities for teaching patriotism, thrift, and the value of service.

Flag salutes, patriotic exercises, patriotic songs, discussions concerning posters supplied the schools by State and National Committees, together with the conservation of food in order to feed our Allies, have furnished much material for lessons in loyalty to our country, and have helped to create a desire to think of others, to work for others, and to sacrifice for others.

The lower grades responded with enthusiasm to the call of the Junior Red Cross, and the value of twenty-five cents per pupil was quickly and easily earned. Constant emphasis has been placed upon penny savings, which has resulted in the purchase of Thrift Stamps. Some of the pupils even attempted the Home Garden work, and although the product was not large, yet we feel it has been a start in the right direction.

We have learned that an important function of the primary school is to teach right ideas of law and government. Begin-

ning with the first year of school life, children must be given liberty and taught how to use it, that they may not mistake it for license. They must learn to obey, and the obedience should be of such a nature that it can be carried outside of the school-room. To this end, teachers are studying the individual, his characteristics, and his environment in order to know how best to inspire and develop ideals of true citizenship.

The recess period is serving as one of the greatest opportunities for inculcating these ideals and establishing right habits. Games suited to the particular needs of the class are selected. The teacher usually enters into the games or supervises to see that the children follow the rules of the game, use clean language, await their turn to give others a chance, and, generally speaking "play fair." There is no better place to lay the fundamental principles of co-operation, loyalty, and good-fellowship.

In our desire to make the work more uniform throughout the town, we have studied needs and problems and have aimed to apply the best methods. As last year, we have followed the plan of meetings of the teachers of the same grades in different schools. At these meetings we have discussed subjects of general interest to all grades, but have given special attention to a few necessary matters.

Particular emphasis has been placed upon reading. The task of teaching the mechanics of reading rests upon the teachers of the first three grades. Various devices have been used to make this part of the work interesting, as well as effective. At the same time, realizing that the reason for failure in school work is frequently due to inability on the part of pupils to read understandingly, much time has been spent in developing the power to get thought from the printed page. A new list of reading books has been prepared, these books to be used whenever it becomes necessary to discard any of those now in use. Aside from this, it is desirable that each room should be supplied with fifteen or twenty different supplementary readers for those pupils who complete the assigned work before the others of the class.

A child needs to acquire the habit of using initiative when first he begins to go to school. The large number of pupils in most primary rooms permits little opportunity for freedom and self-expression. However, we are making a careful study of profitable occupation and practical educational material to be used during the "between-recitation period." At specified times during the day, pupils are allowed to choose their own material and work out their own projects. This is proving very successful in several rooms where it is being tried. In all the work we are striving to connect education with life.

Two new features have been introduced—a study period and a special group. Young children do not know how to study and if left to themselves form careless habits, which once formed are difficult to correct. To teach them how to apply themselves understandingly, a short period is being given each day when all the pupils in the room study some assigned lesson under the direct supervision of the teacher.

The special group consists of pupils who are handicapped in any way. While the brighter pupils are profitably employed at their desks, this group receives individual instruction. In this way we hope to lessen retardation.

The teachers have shown a marked professional attitude and are endeavoring in every way to make their work more efficient. Outside of teachers' meetings and conferences, all inspiration has come from reading school magazines and books, but during the coming year we hope to add lectures and reading clubs for the purpose of continuing the study of educational problems.

Respectfully submitted,

ELIZABETH H. SAMPSON,

Primary Supervisor.

VOCATIONAL AGRICULTURAL DEPARTMENT.

REPORT FOR YEAR OF 1917-1918.

Mr. C. A. Harris,
Dear Sir:

I have the pleasure of submitting to you the first annual report of the Vocational Agricultural Department. The work of this department may be conveniently grouped under four heads as follows:

- I. Work with boys over fourteen in the High School.
- II. Work with boys under fourteen in the grades.
- III. Work with adults on farms and in the town.
- IV. Co-operative work with business interests of the town.

I.

Classes in vocational agriculture were started in the High School with an enrollment of twenty boys, the maximum number allowed for one instructor. This enrollment later dropped to sixteen, due largely to the difficulty in finding the requisite employment outside of school for all the boys. The state in aiding such departments as ours, requires that all boys taking the work be required to spend half their time at practical farm work. This provision is a hard one to meet in Plymouth where so few of the farmers employ help.

During the year, these boys carried on home projects totalling some ten acres and raised products to the value of over seven-teen hundred dollars. A total of three hundred visits to these

boys were made by the instructor during the year. Instruction in this line of work must of necessity be largely individual.

The projects during the year 1918, were all fruit and vegetable growing and only in the case of exceptional lack of facilities was a boy allowed to substitute anything else as a project. Accurate and complete accounts were required of every boy throughout the year and during the summer. These were tabulated and summarized at the end of the year. In addition each boy was required to enrolle in the state contests and submit complete reports of his work to the Club Leaders at Amherst. This work appears to have a successful start in Plymouth and should become more valuable each year.

II.

The school garden work was taken over by the Agricultural Department this year. Owing to lack of time and press of other duties it was impossible to give as much instruction in the lower grades as was desired. Most of the work done was in the nature of propaganda urging the need of larger production this year. Approximately two hundred pupils, including some high school pupils, enrolled in the home and school garden course this year. In each case the consent and promise of co-operation of the child's parents were obtained before the enrollment was accepted. These gardens varied in size from a few square feet to a quarter of an acre. The plot at Nelson Street was again loaned to the School Department and was ploughed and harrowed at their expense. These plots were in every case successfully cultivated and yielded their workers good returns. The home gardens were nearly all visited three times during the summer and such help and advice given their owners as was needed at the time. This work needs more time given to it than can be given by the Agricultural Department, and it is hoped that another year someone may be appointed to devote full time to the work.

A successful exhibit was held at the South Street Engine house on September 17th. Products raised by the home and school gardeners and by the members of the High School Agricultural Classes were on exhibition. All exhibits were entered according to a previously posted premium list. They were judged by Mr. Frank Davis, assistant County Agent. A list of awards follows:

Class I. Beans.

Pole Beans, Kentucky Wonder—1st prize, \$.75, William Braunecker.

Pea Beans—1st prize, \$.75, Almore Burgess; 2nd prize, \$.50, Alfred Peterson; 3rd prize, \$.25, Harold Prince.

Yellow Eyes—1st prize, \$.75, Harold Prince; 2nd prize, \$.50, Allen Perkins; 3rd prize, \$.25, Earl Eddy.

Shell Beans, any variety—1st prize, \$.75, Edward Ransden; 2nd prize, \$.50, Richard Delaney; 3rd prize, \$.25, Francis Bartlett.

Class II. Sweet Corn.

Sweet Corn, any variety—1st prize, \$.75, Paul Prince; 2nd prize, \$.50, Francis Bartlett; 3rd prize, \$.25, Sumner Howard.

Class III. Cabbage.

Cabbage—1st prize, \$.75, John Brenner; 2nd prize, \$.25, Paul Prince; 3rd prize, \$.20, Paul Prince.

Class IV. Squash.

Hubbard Squash, best single specimen—1st prize, \$.50, Sumner Howard; 2nd prize, \$.30, Earl Eddy; 3rd prize, \$.20, Edward Ransden.

Any other variety, best single specimen—1st prize, \$.50, Milton Perkins; 2nd prize, \$.30, Allen Perkins; 3rd prize, \$.20, Milton Perkins.

A successful potato project. Earl Eddy, Summer Street.

An onion and bean project. Yield, 30 bushels of onions.
Edward Ransden, Manomet.

Class V. Potatoes.

Best plate of five any variety—1st prize, \$.50, Earl Eddy; 2nd prize, \$.30, Walter Engler; 3rd prize, \$.20, Sumner Howard.

Best Peck, any variety—1st prize, \$1.00, Sumner Howard; 2nd prize, \$.75, Leroy Peck; 3rd prize, \$.50, Arthur Fihelly.

Class VI. Onions.

Onions—1st prize, \$.50, Sumner Howard; 2nd prize, \$.30, Edward Ransden; 3rd prize, \$.20, Edward Ransden.

Class VII.—Beets.

1st prize, \$.50, Francis Bartlett; 2nd prize, \$.30, John Brenner; 3rd prize, \$.20, Sumner Howard.

Class VIII. Tomatoes.

Best plate of four of any variety—1st prize, \$.50; Almore Burgess; 2nd prize, \$.30, Earl Eddy; 3rd prize, \$.20, Edward Ransden.

Class IX. Carrots.

Best plate of four of any variety—1st prize, \$.50, Percy Haigh; 2nd prize, \$.30, Edward Ransden; 3rd, \$.20, Almore Burgess.

Special prizes were awarded as follows:

Peppers, \$.75, Oscar Ries; Peppers, \$.50, Louis Avanzini; Muskmelons, \$.20, Sumner Howard; Parsnips, \$.50, Arthur Fihelly.

The following pupils were awarded prizes for the best cared for home and school gardens:

School Gardens—1st prize, \$5.00, Paul and Harold Prince; 2nd prize, \$3.00, Earl Wall; 3rd prize, \$2.00, Alfred Muthig.

Home Gardens—1st prize, \$5.00, Milton Perkins; 2nd prize,

\$3.00, Percy Haigh; 3rd prize, \$2.00, Charles Smith; 3rd prize, \$2.00, Leroy Sampson; 3rd prize, \$2.00, John McGoff; 3rd prize, \$2.00, Arthur Fihelly; 3rd prize, \$2.00, Gladys Marvel.

Ten one dollar prizes given by the woman's club were awarded as follows: Nicholas Douylliez, Mathias Smith, Edith Knight, Austin Fratus, Nelson Sampson, Kendal Estes, Ellen Lahey, Donald Reid, Frances Burgess, John Alden.

III.

The work with adults consisted largely of advising the various planters of the so called "war gardens." During the winter months an evening class of eight people was held once a week at which a lecture was given on various aspects of soil fertility and gardening. Early in the spring, talks were given at all the factories in town. The names of those people who wished advice were taken and these were later visited on their premises. By permission of the Plymouth National Bank, the instructor kept office hours there, at which time, people were at liberty to consult him regarding various garden problems. Many availed themselves of this opportunity. In connection with the war emergency work, the instructor also acted as local food administrator until the close of the war made such work unnecessary. Still another phase of this activity consisted in aiding the community market as much as possible. Many farmers were visited and urged to bring their products to market.

IV.

At the conference of the Agricultural Instructors held in Amherst last Summer, it was urged on all present that departments co-operate to the fullest extent with the business interests of their towns. These interests are in many cases closely tied up with the Agricultural industry. The Plymouth

Department was cited as an example of how such co-operation might be affected. The Plymouth National Bank has aided in the financing of a great many Agricultural Enterprises, in this vicinity. During the past year with the assistance of the Department, three hundred and twenty-six pigs have been placed in the town. The buyers, largely boys and girls, although adults were not excluded, signed notes for the amount of the purchase price. It is estimated that at least twenty tons of pork has resulted from these pigs. The notes signed were placed with the bank, which had already advanced the money for bringing the pigs to town. Farmers desiring financial assistance for farm projects were looked into by the Agricultural Department before such assistance was given. The bank allows the Department the use of an automobile as its part of the co-operation.

Another example of such co-operation with business interests has been the work with the Plymouth Cordage Company. The department was able to help them in the judging of the gardens on which prizes were offered by the company. Each place was visited by the instructor and accurately scored.

As this report goes to press, word is received that Plymouth has been awarded the county cup for home garden work during nineteen eighteen. This cup is awarded year by year to the town having the best results in Home and School garden work. Last year it went to Whitman, this year it comes to Plymouth and it is hoped that we may keep it here until it becomes our permanent property.

The Department has participated in many useful phases of work, but space does not permit of their description here. We start on the new year with only one desire: to make ourselves of the utmost service to every citizen in the town of Plymouth.

Respectfully submitted,

W. I. MAYO, JR.,

Vocational Agricultural Instructor.

REPORT OF ATTENDANCE OFFICER

Mr. Charles A. Harris,
Superintendent of Schools:—

I respectfully submit the following report from January 1, 1918 to January 1, 1919.

	Tuancy	Sickness	Absentee	Total
Alden Street School,	0	1	5	6
Burton School,	9	13	33	55

Employment Certificates investigator,	18
Number of homes visited,	668
<hr/>	
Total number of investigations,	668
Found on street and taken to school,	14
Number of visits to schools, /	92

I wish to thank the Superintendent and teachers for the kind assistance which they have given me during the past year.

Respectfully submitted,

JOHN ARMSTRONG,

Attendance Officer.

STATE AIDED PRACTICAL ARTS COURSES.

During the first week of August a class was organized for instruction in canning. These lessons continued for three weeks with a membership of thirteen.

Early in November, courses in Dressmaking and Millinery were offered to the women of the town, free of charge. The enrollment for these classes is as follows:

	First Unit	Second Unit
Millinery (afternoons)	8	8
Millinery (afternoons)	9	8
Millinery (evenings)	5	7
Dressmaking (afternoons)	7	7
Dressmaking (evenings)	6	6

The members of the advisory committee are: Mrs. Charles E. Bittinger, Mrs. William C. Whiting, Mrs. Harry W. Whiting.

Respectfully submitted,

ELIZABETH H. SAMPSON,

Director.

REPORT OF SCHOOL PHYSICIAN

True to his convictions and high ideals our esteemed school physician Dr. Shaw left his work here, for the greater work overseas. While we have endeavored to keep up the good work as begun by him, it is impossible to have as satisfactory a report.

The first five months of the school year were covered by Dr. Shaw, the next by Dr. Shurtleff, and the last four by me. During these months influenza made such havoc in school attendance (40 per cent. being out from nearly every school in town) it was deemed wise to close the schools. When they opened, as careful supervision as possible was kept, and all children in whose family there was a case, and all children showing symptoms of such trouble, were barred from school. In this way we hoped to lessen the spread of the disease. There were few deaths among the school children, but Miss Shaw, one of our Knapp teachers died from pneumonia following influenza.

During these four months two cases of diphtheria were reported to us by the Board of Health. No other contagious diseases reported.

One bad mastoid case has been successfully operated upon at the Eye and Ear Infirmary, Boston. Several bad eye and ear cases have also been treated at the same place, taken there by the school nurse.

Two cases of spinal curvature have been referred to Boston specialists, and the attention of many parents has been called to children with enlarged tonsils and adenoids, to defective eyesight and hearing, bad postures and mal-nutrition.

Believing that the physical welfare of the child is as im-

portant as mental training, we urge the cooperation of the parents.

Teachers have helped much in their watchful care of the children, and both teachers and janitors have been wise and helpful in ways of ventilation and sanitation.

Most important of all is the follow-up work of the nurse whose report follows this.

Respectfully submitted,

HELEN F. PIERCE,

Acting School Physician.

REPORT OF SCHOOL NURSE, 1918.

Number of school visits,	503
Number of home visits,	565
Number of treatments in school,	894
Number of contagious cases found in schools,	126
Number of contagious cases found in homes,	72
Number of pupils inspected,	5,135
Referred to physicians,	43

Nine cases of diseased tonsils and adenoids were operated at the Jordan Hospital, and several cases of eye and ear trouble taken to Boston Hospitals for treatment or operation. The need is felt more and more each year, for a local clinic, to which children suffering from various defects can be taken for treatment.

Clothing has been supplied to a number of needy cases, through the kindness of the Fragment Society, and private individuals.

SUSIE MACDONALD, R. N.
